"The Linotype Way is the Way that Wins."

Official paper of the Town of Gresham, Oregon.
Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the postoffice at Gresham, Oregon, under the act of March 3, 1879.

Rumors are afloat that the cooperative supply house in Portland which started up last summer under apparently favorable circumstances has gone into the hands of a receiver. The company was owned by a large number of share holders, many of whom reside in this vicinity and it is reported that the sum represented throughout Eastern Montana will total about \$23,000. There is no definite information available and the case may not be as bad as rumored.

The company owns the property at East First and Madison streets, and the big truck building is well stocked with goods of every description, but it seems to have encountered hard times and the bills are accumulating that have to be paid. Perhaps a good manager may save the house and protect the stockholders from any considerable loss.

It is said that the stockholders in this vicinity gave their notes for their shares, some of which amount to a thousand dollars or more each. The notes are said to have been cashed at the banks and will have to be paid when they become due.

There was a slight mistake in the figures given last Friday concerning the amount of cheese 100 pounds of milk will produce and the value of it. We should have said that 100 pounds of milk will yield 11 pounds of cheese, which, at the price of 18 cents, would bring \$1.98. The cream from 20 pounds would be clear profit, and that much could be taken. In regard to selling to wholesalers, the association members will be allowed to sell individually and not through the manager.

Twice lately a big bunch of chicken-fighting sports from Vancouver and Portland have come out the Base Line after nightfall for a session of their favorite sport. They are reported to have found an old barn where their cockpits are set up, and where they indulge in their pastime secure from interruption. About twenty birds were slaughtered on each occasion and considerable betting was indulged in by their various owners. It is reported that a Vancouver crowd cleaned out the pockets of the Portland sports on one of the occasions.

Game chickens are in demand just now, several having been secured for the next event in this part of the county.

Today is the anniversary of two important events: This is inauguration day in Washington and the beginning of Vol. 3 of the Outlook. There will be new policies at the nation's capital that may be some improvement on the old ones, but the Outlook will improve with each succeeding issue, both in its policy of progressiveness and in catering to the tastes of the best moral constituency in Oregon.

President Wilson's Cabinet.
It is President Wilson now, the inaugural ceremony having placed him in the position of the nation's chief executive today. His cabinet is to be composed as follows:
Secretary of State—William Jennings Bryan, of Nebraska.
Secretary of Treasury—William G. McAdoo, of New York.
Secretary of War—Lindley M. Garrison, of New Jersey.
Attorney-General—James McReynolds, of Tennessee.
Postmaster-General—Representative Albert Burleson, of Texas.
Secretary of the Navy—Josephus Daniels, of North Carolina.
Secretary of the Interior—Franklin K. Lane, of California.
Secretary of Agriculture—David F. Houston, of Missouri.
Secretary of Commerce—Representative William C. Redfield, of New York.
Secretary of Labor—William B. Wilson, of Pennsylvania.

A use for hop vines left in the field after the crop is picked has been found by an experimenter at Tacoma, Wash. He proposes to utilize the fibre in much the same way that flax is used. A chemical is used to dissolve the vegetable matter that encloses the fibre and the latter is then ready to be dried, carded, spun and made into cloth. Practically the same treatment and machinery can be used as in flax manufacture.

Ladies to Give 10 Cent Tea.
The Ladies' Aid tea which was to have been held Wednesday, March 3 at the home of Miss Mabel Thomas, will be held at the home of Mrs. Ed Metzger on account of the illness of Miss Thomas' mother.

TROUTDALE WILL HAVE NEW SERVICE SUNDAY

Troutdale will get the first through service over the newly electrified section of the Mount Hood road. This action was produced in the Outlook last week and it will be a certainty, beginning next Sunday. Gresham is not to be considered yet, as the west terminus for the steam trains will be at Ruby for awhile with the same schedule as at present. Passengers leaving here for Portland will have to transfer to the electric cars at Ruby. Portland passengers for points between Ruby and Bull Run must take the Estacada car at First and Alder streets at 11:45 a. m. and 4:55 p. m. on week days and 7:45 and 11:45 a. m. and 3:45 p. m. on Sundays, as there will be no connected service through Montavilla as heretofore.

Electric cars will be run by way of Ruby from Troutdale to Montavilla, where connections can be made with the city street car lines. Nine trains will be run over this line on week days leaving—

Montavilla at 6:30 7:30, 8:50, 10:50 a. m., and 12:50, 2:50, 4:50, 5:50 and 6:50 p. m. The run to Troutdale from Montavilla will take 30 minutes.

Passengers leaving Troutdale on the other hours excepting those that connect at Ruby will have to go on to Linneman for transfer to Portland.

The new schedule will require two transfers between Portland and Troutdale, one at Montavilla and one at Ruby. There will be comparatively quick service in going to the city, but an allowance of 50 minutes should be made in returning to get from the heart of the city to the Mount Hood depot. Montavilla cars leave Third and Yamhill every ten minutes but not all of them will make close connections at the Villa.

Gresham Grange Meets Saturday.
Regular session of the Gresham grange Saturday, March 8. Open lecture hour, M. O. Nelson will speak on Keeping the boy on the Farm and Mrs. Nelson on Flower Culture. Another feature will be the question box—open for all.

Turning Incubator Eggs.
A simple method of turning eggs in an incubator is given by F. H. Johnston, Portland, in the current issue of The Oregon Countryman, published by the students of the Oregon Agricultural College. He suggests removing a row at the back of the tray, rolling the others back, and putting those removed into the spaces at the front.

You can say goodbye to constipation with a clear conscience if you use Chamberlain's Tablets. Many have been permanently cured by their use. For sale by Gresham Drug Co., and Dealers everywhere.

Will Cure Stomach Trouble.
J. M. Atterbury wishes to announce that he has a simple and sure cure for chronic stomach trouble, which he will be glad to furnish to anyone practically free of cost. Address or call on him at Gresham, Oregon.

SENIORS ENTERTAINED IN ELABORATE STYLE

In honor of the senior class of the Gresham high school, the sophomores entertained at the Commercial hall on Friday evening, February 28th. The affair was in the nature of an "indoor lawn party" and the decorations carried out this idea.

A gate was placed at the door, and the guests, passing through this found themselves in a bower of greens. The walls and ceiling of the hall were covered with cedar boughs for trees were placed before the windows, at the door and on the stage. The class penants occupied prominent places on the walls, the 1913 penant being placed on the stage.

A program of new and interesting games had been planned, finishing with these, supper was served. The supper was arranged in lunch boxes, each box being decorated with the sophomore colors and containing lunch for two. A well was also dis-

GRESHAM DRUG COMPANY

CLEAN OUT! AND CLEAN UP!

WHY WE CAN GUARANTEE **VERONICA WATER**

WE KNOW that nine-tenths of the diseases with which the human race is suffering today are due, primarily, to overloading the stomach and not properly chewing the food, which causes a fermentation of same, and gases or acids lodging in the linings of the intestines and being absorbed into the system, which create an acid formation, causing all kinds of trouble—first of the stomach, then the liver, then the kidneys.

WE KNOW from the analysis of Veronica Water, made by the United States Government, that it is an

ANTI-ACID

and will dissolve and expel the CAUSE OF DISEASE without griping and weakening (which no other water or drug ever compounded was known to do) If you want to cure any disease you must

REMOVE THE CAUSE

Look at the tongue; you see the coating there. The deeper you go into the system the thicker it gets, until the natural action of the intestines is lost. Compare your system to an up-right boiler. You can see the flues corrode and the firebox fill with ashes—just so with the system. Clean it out.

WE BELIEVE God Almighty made the human system perfect and if we studied its care and gave it half the attention we do any piece of machinery it would work all right.

OUR GUARANTEE TO YOU

AFTER 17 YEARS' success on the Eastern market, and from the experience and RESULTS produced for the suffering, we are prepared to put a case in your home on TEN DAYS' TRIAL, FREE, and if it does not give you better results than all the remedies you ever used—AND YOU TO BE THE JUDGE—there will be no charge for water used. The names you know the disease by are merely the symptoms. We do not care what name you give it, if you want to cure it YOU MUST REMOVE THE CAUSE, whether it is

STOMACH OR LIVER

Indigestion, Dyspepsia, Water Brash, Heartburn, Gastritis, HEART TROUBLE or Malaria, etc.

KIDNEY OR BLADDER

Rheumatism, Systitis, Dropsy or any other name you are pleased to call it. We don't ask you for your money first—you get RESULTS first.

NO, VERONICA IS NOT A CURE-ALL.

We make no such claim, but, from the testimonials we have received, the people make it so. The only claim we make is that "it will dissolve the corrupt particles, dissolve and expel them from the system WITHOUT griping or weakening." This action purifies the blood and thus permanently relieves. What pure blood won't do can't be done by drugs.

GRESHAM DRUG CO.

GRESHAM, OREGON

covered and instead of water, was filled with delicious punch. The sophomore orchestra rendered several pieces during supper.

Besides the teachers and members of the high school Mrs. Dale Evert, see Miss Carol Miller, and her husband were present.

Due credit must be given to the

members of the sophomore class, who through their diligent and faithful work, made the party a most successful one.

Get the habit. Why wait a week for the news? Try the twice-a-week plan of the Outlook. Phone 701.

The Best Light

AT THE LOWEST COST

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light.

ELECTRICITY can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore,

ELECTRIC LAMPS can be located in any place, thus affording any desired distribution of light.

NO OTHER LAMPS possess these qualifications; therefore, it is not surprising that

ELECTRIC LAMPS are rapidly replacing all others in modern establishments.
