New Goods! New Goods!

We wish to announce the arrival of a large stock of **NEW GOODS**. They are not goods bought from high-salaried traveling men, whose business it is to load merchants with undesirable goods at high prices.

They are bought new, and up-to-date patterns, personally selected in the greatest markets in the country, where competition establishes prices that are not associated with the trusts. They represent the best values that money can buy, and we offer them to you at prices that will stand comparison.

The library board has begun the work of draining the basement of the building into Johnson creek. A sewer pipe will be laid down Main street to connect with the gulch east of Shattuck's store, which it is thought will have the effect of carrying away the surplus water that persists in forming around the library.

YOUR SAVINGS EARN INTEREST

SOME POINTS

There are some points about the "SAVINGS BANK WAY" that are often overlooked.

You can always invest small odd amounts at interest and you can invest them at once.

You don't have to wait until you get an even Hundred or Five Hundred as the case may be. You can earn compound interest while accumulating your investment fund.

Your interest return is certain and can be added immediately to your principal and begin to earn more interest.

A savings account at this bank is always a cash asset—does not have to be turned into money, it is money.
