## The Best Light

AT THE LOWEST COST

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light.

ELECTRICITY can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore,

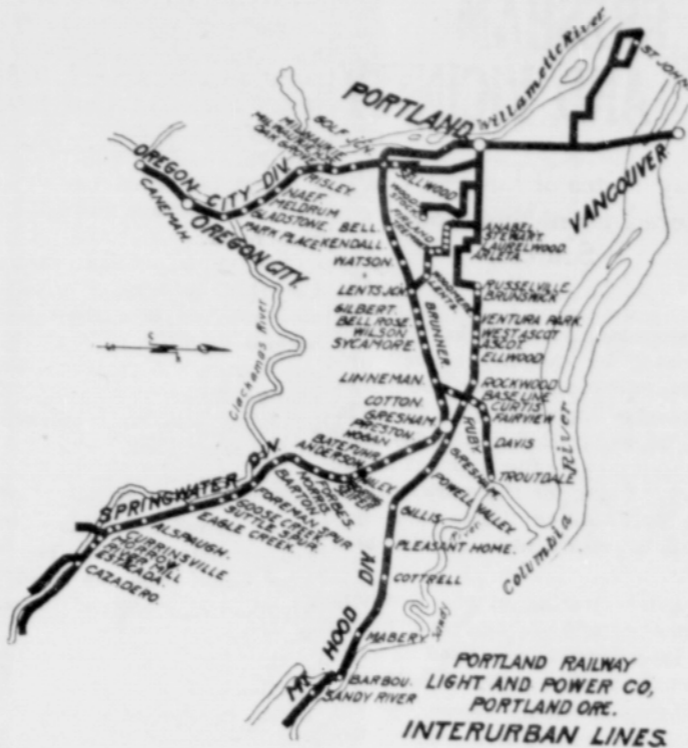

ELECTRIC LAMPS can be located in any place, thus affording any desired distribution of light.

NO OTHER LAMPS possess these qualifications; therefore, it is not surprising that

ELECTRIC LAMPS are rapidly replacing all others in modern establishments.

The above map shows the electric lines covering the eastern part of Multnomah and Clackamas counties and giving easy connection to these many localities with Portland. The Mt. Hood line is now being electrified between Gresham and the Sandy river. The people along all lines are demanding of the P. R. L. & P. Co., the very quickest and best service that it is possible to give, to and from Portland. A new schedule has just been put on between Troutdale, Fairview and Montavilla, whereby close connection is made at Ruby with the Mt. Hood line, going west to Montavilla and east to Gresham, Pleasant Home and Bull Run. It is claimed that when the line is electrified to Mayberry another improvement will be made in the service. The people ought to help make the railroad a paying proposition and then quietly insist on adequate service and reasonable rates.

## Why He Was Late.

"What made you so late?"  
"I met Smithson."  
"Well, that is no reason why you should be an hour late getting home to supper."  
"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."  
"Did you tell him to take Chamberlain's Tablets?"  
"Sure, that is what he needs."
