"The Linotype Way is the Way that Wins."

Official paper of the Town of Gresham, Oregon.  
Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the postoffice at Gresham, Oregon, under the act of March 3, 1879.

## CALIFORNIA'S PROBLEM.

California's predicament over the Japanese question is one that might well confront Oregon or Washington—only it hasn't so far. Conditions down there are different and one intelligent Japanese has caused all the trouble, a condition that affects Oregon, especially this part of it, to the extent of the total loss of last season's potato crop.

Ownership by and leasing of land to the Japanese in California is responsible for all the trouble there and loss here. When an alien can come to this coast and become a millionaire in sixteen years and create such a condition of affairs that two nations are embroiled it is time for Americans to assert themselves. California is now trying to retrieve its mistake, or rather the mistake of a few who gave the Japs their strangle hold on its agricultural industries.

The same mistake is being made here, especially in Multnomah county. Those who are leasing their farms to the Japanese are playing with the "yellow peril," and if they continue their sport a few years the game will reach the same chronic stage that it has reached in California.

It looks easy to the land owner to take down a good big sum as rent money for a productive farm, but it breeds discontent among those less fortunate. It places the smaller and poorer farmer at a disadvantage and impoverishes both eventually.

If California can make its alien land laws constitutional the state of Oregon will follow. But would it not be wiser for our land owners to quit leasing to the Japs

For once the Outlook must take issue with the Oregonian on the Japanese situation in California. That paper compares the withdrawal of the Japs from California with the expulsion of the Jews from Spain in 1492, and with the expulsion of the Huguenots from France when the edict of Nantes was revoked. Both races left their native country by the thousands, carrying with them much of the intelligence and wealth of the two nations. Here the situation is vastly different because this is not the native land of the Japs and they are not over welcome to come here, their only object being to exploit this country for wealth and take no part in our progress.

The Woman's club will meet with Mrs. Mills on Thursday next at 2 o'clock.
