**AN INVESTMENT**

WHETHER your painting is an investment or an expense depends on what paint you buy. Don't buy paint that has to be prepared by hand. In that case you pay extra for painter's time in mixing. Don't buy cheap paints, even though ready mixed. You get just what you pay for—an inferior paint and inferior results.

"High Standard" Liquid Paint

Gives Best Results. Costs a trifle more by the gallon but very much less for the job because it is thoroughly machine-made and has skill, experience and a reputation behind it, and therefore does more work.
