"The Linotype Way is the Way that Wins."

Official paper of the Town of Gresham, Oregon. Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the postoffice at Gresham, Oregon, under the act of March 3, 1879.

HIGH SCHOOL SITE IS OF GREAT IMPORTANCE

The most important question to come up before the voters of Gresham at the annual school meeting to be held on June 16, will be that of selecting a site for a county high school—that is, provided a site is selected and authority given to purchase the property. The matter is of the utmost importance whatever the result, and the whole population should go to the schoolhouse with the idea in view that Gresham should have such an educational institution as it is now within its power to secure.

The district is in easy circumstances and not in debt. The present facilities are inadequate and conditions will grow worse, necessitating more room within a year or two more at the furthest. There seems to be no possibility of securing factories or other industrial enterprises here but there is the opportunity to make Gresham an educational center that should be taken advantage of before some other near-by community gets the start in that direction, leaving Gresham forever at a disadvantage.

The committee appointed to make report on desirable locations has made an exhaustive canvass of the different properties and will submit their findings for the approval or disapproval of the voters. While the site to be selected is of considerable importance that part of the question is subordinate to the one of having the school or not. It should be had.

The Outlook is trying to look forward into the future and believes that a county high school is desirable from every standpoint. The buildings will actually be needed by the time that they can be made ready for use. The school would be an attraction that would make Gresham one of the most desirable residence towns in the Northwest. On a smaller scale it would rival the college cities of the state and enhance land values to such an extent that the cost of the property and its buildings would be negligible. All arguments favor the proposition.

FIRST WINNERS IN SWEET PEA RACE

The Outlook office was taken by surprise last Saturday when sweet pea blossoms from seeds given out by the Outlook to children began to come in, Marjorie Stillions bringing us the very first to appear. It was almost as much of a surprise to little Marjorie as to us. She was among the first to get seeds, our records show that she got her's on March 26. Assuming that she planted the seeds at once, her time was 10 weeks and three days.

The editor inspected her sweet pea vines and saw the flowers in bloom. There were at least four well developed blossoms in the bunch brought to this office. There are other prizes to be won and all children are requested to report their first flowers to this office. A record will be kept of the names and dates and the names published in the Outlook.

Frank Escobar has presented the Outlook with a single sweet-pea branch bearing five well developed blossoms. He offers a prize of \$1 to any boy or girl growing sweet peas who will produce and show in a branch with six blossoms. Now get busy, boys and girls. Be observing and do your best.

Remember, it is expected a sweet-pea show will be held soon under auspices of the Women's Council and all boys and girls will want to make displays.

Also sweet peas planted now, and irrigated, would produce abundantly about fair time.

Who can grow the biggest pumpkin? That is what the managers of the fair want to know and there is a diploma awaiting the one who can win it.

Many high schools in the state are installing home science courses or enlarging the work already begun among the places organizing these courses are Newberg, Prairie City and Centralia, Baker, Springfield, Hillsboro, etc., have the courses already established.

Gresham high school should start a home science course this fall and secure early a first-class teacher. The manual training has been a success. The idea should be enlarged to include domestic science.

One indication of the great growing spring is the immense crop of hay in sight. Never before has the vegetation in the meadows and fields been so rank as it is now and there is going to be the best crop of hay in Eastern Multnomah that ever was. Possibly it is equally as good all over the Willamette valley and it is a sure seller at good prices, and when it won't sell it will keep over. A big crop may mean lower prices but it means plenty and the farmers can feed more cows and sell more milk and make more money when the crop is heavy than when it is light.

"I have better fruit and better vegetables than those," is what we will hear someone say at the fair next fall. "Then why," we will hear someone else say, "didn't you bring it along?" The premium list tells how to enter such things for cash prizes or diplomas and if you who read this have anything "better" just bring it to the pavilion and go home a winner.

The Outlook would be pleased to have everyone report what they are making a specialty of.

The information if made public will help to boost the fair and incite some other person to get busy, and it won't hurt. Those who have the best are going to be the winners and should be proud of it. We want to help boost, so assist us to do it by giving us all the information possible.

Fairview is to be congratulated on its proprietorship of a real baseball park and the clean sport it puts up every Sunday afternoon. To C. E. Morrison should be given the greatest credit for the grounds and the games but he has the support of all the people down there and many others from the outside. Once upon a time there was a good team in Gresham but it was allowed to fade away and no one seems to have enterprise enough to revive it. Several of the other surrounding towns have good clubs and are receiving the patronage of those who are not opposed to clean Sunday sports, of which baseball is the greatest, because it makes the ball game a general visiting place of many families who are too busy during the week to see much of each other and they can enjoy a few hours in several ways that would in many cases be spent in the dull monotony of staying at home.

Most Children Have Worms.

Many mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims, of that most common of all children's ailments—worms. Peevish, ill-tempered, fretful children, who toss and grind their teeth, with bad breath and colicky pains, have all the symptoms of having worms, and should be given Kickapoo, Worm Killer, a pleasant candy lozenge, which expels worms, regulates the bowels, tones up the system, and makes children well and happy. Kickapoo Worm Killer is guaranteed All Druggists, or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.

Sawmill Is Rebuilt.

Nickerson & Anderson, two experienced sawmill men, are erecting a large sawmill on Sandy river near Camp five on the site of the Tappendorf mill which was burned down recently. They have a complete mill, one of the largest in this section of the country, and have secured a large body of timber. It will take them about two years to saw up the timber in their tract. Lumber and railway ties will be turned out, which will be hauled to Bull Run for shipment by way of the Mount Hood railway.

List of Letters.

The following list of letters remain uncalled for in the Gresham postoffice for the week ending June 8, 1913:

Letter—Miss Jessis E. Burgiss. Foreign Letter—Geo. Veit. Card—Mrs. E. J. Shotwell. Foreign Card—Geo. Veit, (2)

These letters will be sent to the dead letter office on June 22d, 1913, if not delivered before. In calling for the above, please say advertised, giving date of list.

I. McCOLL, P. M.

NEW WEED ORDINANCE THAT WILL FILL THE BILL

Portland is "going after" the weed nuisance, as applied to sidewalks and vacant lots. A new ordinance is being prepared by the city attorney which makes it the duty of the property owner or his agent to keep all weeds, grass, vines, bushes, plants, shrubs or trees cut during June, July, August and September of each year. Exemption is made of bushes, shrubs, and trees, which supply ornament, food or fuel.

The ordinance also requires property owners in the residence districts to keep sidewalks clear of debris.

Under the present ordinance if the property owner, after notice does not cut the weeds the police have the work done and send the bill to the owner of the property. Under the new ordinance if weeds grow up on vacant property the city engineer is required to post a notice on the property reading: "Notice to cut weeds and grass." He will also send written notice to the owner of the property. If the weeds are not cut within five days the engineer will order the work done and the cost will be assessed to the property the same as other assessments for improvements. The same routine will be gone through in the case of debris on sidewalks.

Such a regulation should be adopted in Gresham.

Buy your strawberry Hallowcks and crates at Sterling & Kidder's.

WOODMEN MEMBERS ATTEND CAMP SESSION

Four members of Multnomah Camp, No. 77, Woodmen of the World went to Portland on Friday evening last to attend the camp session. They were J. H. Metzger, J. E. Metzger, H. L. St. Clair and E. L. Thorpe. They had the pleasure of taking a small part in the election of camp officers all of whom were elected unanimously. Such an election in a lodge of nearly 2500 members is so rare that it is a noticeable event. Those chosen to serve the camp for the next six months were C. L. Daue, consul commander; A. M. Bodley, adviser lieutenant; Dr. James L. Manion, escort; C. W. Garland, watchman; H. V. Webster, sentry; J. L. Wells, manager for 18 months; Rev. J. H. Bennett, chaplain. The two remaining officers of clerk and banker are holdovers, they being elected but once a year, in December. There are quite a number of Woodmen in and around Gresham, nearly all of whom are members of Multnomah. Several new members from here are joining and will all take a part in a big "log rolling" on Council Crest, Sept. 1.

Guaranteed Eczema Remedy.

The constant itching, burning, redness, rash and disagreeable effects of eczema, tetter, salt rheum, itch, piles and irritating skin eruptions can be readily cured and the skin made clear and smooth with Dr. Hobson's Eczema Ointment. Mr. J. C. Eveland, of Bath, Ill., says: "I had eczema twenty-five years and had tried everything. All failed. When I found Dr. Hobson's eczema ointment I found a cure." This ointment is the formula of a physician and has been in use for years—not an experiment. That is why we can guarantee it. All druggists, or by mail. Price 50c. Pfeiffer Chemical Co., Philadelphia and St. Louis.

Notice of Annual School Meeting.

Notice is hereby given to the legal voters of School District No. 4 of Multnomah County, State of Oregon, that the annual school meeting of said district will be held at the Schoolhouse to begin at the hour of 2 o'clock p. m. on the third Monday of June, being the 16th day of June, A. D. 1913.

This meeting is called for the purpose of electing one director for term of three years and one clerk for one year, and for purpose of selecting high school site and levying tax therefor and voting tax for the gymnasium, and the transaction of business usual at such meeting.

Dated this 5th day of June, 1913. O. I. NEAL, Chairman Board of Directors.

Attest: D. M. ROBERTS, District Clerk.

Best Laxative for the Aged

Old men and women feel the need of a laxative more than young folks, but it must be safe and harmless and one which will not cause pain. Dr. King's New Life Pills are especially good for the aged, for they act promptly and easily. Price 25c. Recommended by all Druggists.
