acre tract on Main street for \$1000 per acre; or north or south one-half of same tract for \$2500 per acre. Either of the latter would give frontage on Main street of about 250 feet.

P. Michel—Four acres adjoining cemetery on the east for \$3500.

D. W. Metzger—Three acres Metzger avenue for \$2500 net.

Charles Cleveland—Six or seven acres on Division street east of Hood depot for \$600 per acre.

Mr. Cleveland has also stated that he would sell five acres Main street north of the Mountain railway for \$600 per acre.

Theodore Brugger—Three one-fourth mile west of the school house for \$2000 net.

A lengthy discussion following the report of the committee in which the opponents of the proposed school took a leading part in the defeat of the project. After the talk had lasted for nearly an hour the friends of the school being actively engaged in explaining its advantages a ballot was taken resulting in a victory for the high school by a vote of 59 in its favor to 41 against. This vote was taken on direct motion made by George Metzger, who at first wanted to include a five-mill tax. That part of the motion was finally withdrawn when it was shown that much smaller amount would do a beginning.

Lewis Shattuck made the motion in regard to the purchase of the property which was carried. Its terms a committee of seven was to be named to act with the board of directors in submitting the choice of sites to the voters of the district at an election to be called by the board at some future date. The vote is to be by ballot with the second and third choice, all the different tracts to be listed and the location and cost to be printed on the ballots. The election is to be held during a whole afternoon from one o'clock to six. All details to be presented and the people are to make their choice themselves.

The committee appointed consists of Lewis Shattuck, R. R. Carlson, D. M. Cathey, H. E. Davis, Emory Kelly, Archie Meyers and J. Stubbs.

The matter of a gymnasium taken up as the last business of the meeting and it was finally voted down by a majority of 40 against 23 in its favor. Those who opposed it seemed mainly to be actuated by the idea that a gymnasium would have to be provided for the high school and that the cost could lay over until it was needed. It advocates pointed out a gymnasium is needed by grade pupils, but their arguments were unavailing for this time at least.

The meeting was very harmonious and lasted for three hours, but friends of the high school felt that they had accomplished all they could for.
