**MEMBERSHIP INCREASING.**

Attention was directed a few months ago to the decline in grange membership in Multnomah county. The different granges were urged to "get busy" in some way to stop the falling off and, if possible, to increase the membership. The reports made to Pomona grange on Wednesday last show that there has been a slight gain in membership; also that all of the ten granges in this county are thriving. All but two of them, Fairview and Woodlawn, now are owners of their own halls and the membership is solid, substantial and capable of holding their organizations together. Yet there has been a falling off in numbers during the past two or three years in every grange. The reports show a loss of about 230 members in three years.

There must be some reason for this decrease but no one seems to be able to say what it is or how to forestall it. The county's population is increasing and the grange should grow with the population. Instead, it is growing less. It seems, though, that the lowest ebb has been reached and that there are nearly a thousand loyal grangers in Multnomah yet.

There are too many good, substantial farmers who take no stock in the grange. It has helped them in many ways yet they are content

to receive the benefits without any recompense. They are sometimes "knockers" and not only refuse to become members themselves but prevent others from joining. They are pretty narrow in their ideas about the grange, knowing, as they say, that it offers more in return for the cost than any other institution. Perhaps they will some day realize their mistake.

Johnson creek is said to have the best water for the manufacture of woolen goods of any creek hereabout. We all knew it was good for something and there are unlimited sites for woolen mills all the way from Pleasant Home to Milwaukie. Gresham has the shipping facilities. Who will build the mill?

Milwaukie public school will hereafter be in session but nine months in the year. Heretofore it has followed Portland's example in having a ten months' school, which is one month too long for good results. Three months of vacation seems to give the pupils a better grip on themselves than a shorter period and is certainly not too long.

At the annual meeting of the First church of Christ, Scientist, which was held in Boston early this month, Frederick Dixon, of London, was elected president of the mother church. The reports showed the past year to have been one of remarkable growth, 192 new churches having been organized.

Stated communication of Troutdale Chapter No. 80 O. E. S., will meet in emergent session in grange hall Fairview schoolhouse, Saturday evening, June 21. Degrees.

By order W. M.,  
M. S. McKAY, Sec'y.

FAIRVIEW, Westward.—The annual school meeting held in district No. 7, known as the Wilkes schoolhouse was one of deep interest throughout. It was decided that this district should keep pace with other school districts and a tax was levied to build a new schoolhouse of bungalow style with full basement, to be heated by an up-to-date furnace, the school room to have all the latest improvements. The grounds will be surrounded by a neat wire fence. The county has graded the road running by the schoolhouse which has caused the entire district to

aid in every way the present board of directors, William Tegart, G. H. Zimmermann and W. C. Spence, in their work of bringing this district up with any in the county. The building will cost \$3500. Thos. Rowen was re-elected clerk.

Jones & Hevel have been kept busy cutting ensilage along Sandy road. The high water has caused some loss of crops and summer pasture. Considerable of the intended hay crop had to be put into the silos in order to save it.

The high water has played havoc with what is known as the second bridge on the newly located road from Fairview to the Columbia river through the Luscher farm; also the first bridge is damaged some and the expense will now have to be borne by the county. Mr. Millet and the Fitzgeralds have to use boats to get their milk to the depot.

Rolland Quisenberry, of Rockwood has gone to work for O. E. Meindal at Cathlamet, Wash., and will spend the summer there.

Mrs. J. H. Schram, who has been ill so long, is slowly improving and is now being taken care of by Mrs. H. M. Clark. She is able to be up a few moments at a time, is quite cheerful and ere many months hopes to be able to return to her home.

It is now well known that not more than one case of rheumatism in ten requires any internal treatment whatever. All that is needed is a free application of Chamberlain's Liniment and massaging the parts at each application. Try it and see how quickly it will relieve the pain and soreness. Sold by Gresham Drug Co., and Dealers everywhere.
