Sandy Women's Club Report

By Mrs. Blanche R. Shelley, President of the Club

Reference was made in the Sandy column last Tuesday to the closing summer meeting of the Woman's club at that place. Following is the annual report of the president, Mrs. Blanche R. Shelley, read on that occasion:

Members of the Woman's club of Sandy: In compliance with the constitution of our club, I beg leave to read the following report, setting forth the things we have accomplished and touching on those we wish to do.

In union there is strength; in strength there is power, and in proportion to our unity so will our power as an organization be. Were we ten times greater in numbers than now and yet lacked unity we would fall utterly.

As far back as history goes, when men and women wish to accomplish any great social good or acquire national strength they have united in some kind of an organization. Thus all forward movements have been the result of organized, concerted action.

The twelve lowly followers of the Nazarine revolutionized the world because of their oneness of purpose and their fidelity to the Master's command "Love one another, even as I have loved you."

Coming on down through the pages of history to our own revolutionary war we find the colonists fighting for the fundamental principle upon which progressive government is based—equality. The story is too well known for me to repeat it but when the Stamp act, the tea tax and other unfair measures were forced upon them, they stood together as one colony and said, "Down with tyranny." There is a oneness of purpose an organized movement and when the bell in the old south church pealed forth its

wonderful message of victory, it was not a story of force of numbers but of union, perseverance and purity of purpose. Had it been otherwise our national history might have been vastly different.

In all the pages of ancient, modern, sacred and profane history we find striking examples of the force of perfect organization and purity of purpose.

As our chosen guide, I have tried to emphasize this in our club work. What a great power we can become if we will but throw aside individual preferences and, working together as one for the common good, the Woman's club of Sandy will become a factor to be reckoned with and a high example of concerted, consecrated effort.

Our constitution says that in her report the president shall recommend such things for the future as she sees fit. I would suggest that a member rise, address the chair and await recognition before speaking. I would further suggest that during discussions, we confine ourselves to the question under discussion and that only one member at a time occupy the floor. In this way much time can be saved and perhaps many tempers remain intact.

During the coming year may our work widen and broaden, not in many little circles but in one ever increasing circle. May we work hand in hand for purity in thought, word and deed. In the words of the immortal Lincoln, "With malice towards none, with charity for all, with firmness in the right as God gives us to see the right, let us finish the work we are in" and our children, and our children's children shall rise up and call us blessed.

Respectfully submitted,
BLANCHE R. SHELLEY,
President.

W. C. T. U. Notes

Lord Walseley on Total Abstinence.

The recent death and public burial in St. Paul's Cathedral, London, of the noted soldier, Lord Walseley, recall his outspoken attitude on the temperance question. He did not believe in the use of alcoholic drinks among his troops. In 1870 he is said to have carried through his Red River expedition on rigid lines of total abstinence, and during the Nile campaign, no alcoholic rations served. He himself reports, "All the troops up the Nile in the Sudan have been for months without beer or spirits," the result being the one of the officers declared that they—the troops—were "the finest fighting men it was ever any man's lot to command." In 1893, Lord Lolsley is reported to have said, "There are yet many great enemies to be encountered, some great battles to be fought, by the United Kingdom but the most pressing enemy at present is drink."

Liquor Problem the Biggest.

"The high cost of living, the tariff, and the other issues are insignificant compared with the liquor problem," says Mr. J. Denny O'Neil, an official of Allegheny county, Pa. "The saloons would have been knocked out long ago except for the false idea that so many men have, that they must be tolerated for the revenue they produce. Last year it cost Allegheny county \$728,839.37 to support the institutions made necessary by the whisky business. The county's share of the license money was \$89,098.04. If we will give the liquor business credit with the above amount, it leaves a balance of \$639,741.93 in favor of knocking out the business on a strict money basis."
