

GRESHAM OUTLOOK TWICE A WEEK

Published every Tuesday and Friday at Gresham, Oregon. H. L. ST. CLAIR, Editor and Publ'r.

Official paper of the Town of Gresham, Oregon. Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the postoffice at Gresham, Oregon, under the act of March 3, 1879.

WE MAY KNOW TOMORROW.

When the Beaver Motor company meets today at its Portland office it expects to decide the location of its factory. A message from Mr. Frank McCrillis is to that effect and he expects Mr. O. A. Eastman and Mr. Charles Cleveland to be there at the time.

Milwaukie is making a strenuous effort to get the factory and it is said that \$25,000 has been subscribed over there with a five-acre tract of land thrown in. The land is located at Adenwald a long ways from the railroad depot and is not to be compared with the location to be had in Gresham. As to the money—more may have been actually subscribed at Milwaukie than here, and if that consideration loses us the factory the people of Gresham will have a think coming when it is too late.

DR. JORDAN'S PLAN.

Dr. David Starr Jordan is an advocate of peace and preaches that the weak and effeminate men be sent to war while the strong ones stay at home. Once on a time Artemas Ward offered to sacrifice all his relations if necessary to help put down the rebellion, but people laughed at him which was just all that he was trying to make them do. It is to laugh at Dr. Jordan but he is in earnest and has no sense of humor.

One other humanitarian many years ago suggested that only the old men should be sent to war on the theory that the old should be killed off first. He was a humorist, also, of the Ward stripe, but in his case the people were shocked instead of being amused and the suggestion was forgotten. Dr. Jordan's suggestion will also be put away on the shelf after the paragraphs have had their fun at his expense. He will be in a class with Dr. Osler, who said that men should be chloroformed at sixty. He is 62 but hasn't taken his own medicine yet.

This community will feel long the loss of two well known and highly respected citizens—J. D. Regner and J. W. Shattuck—who within little more than a week have passed to their reward. Both were early settlers, were active in the early development of this section, reared families here, took an active part in local affairs and retained their interest and activity almost to the last.

Doughnuts like "mother used to make", that's what Mrs. L. T. Lusted treated a few friends to this morning, saying they were from Spokane, sent by Mrs. Pugh and sons, who are interested in the factory where the doughnuts are made. It is claimed they will keep for a long time in any climate, but we doubt if they would keep long at the Outlook office.

As a result of the recent visit of Chief Forester Graves to the Siuslaw Forest Reserve, the agricultural lands included in that tract will be opened to entry by homesteaders. A large part of the land best suited to agriculture and dairying has already been surveyed and segregated and the balance will receive attention as soon as possible after applications by prospective settlers have been received.

From Weston, Oregon, comes news of the first returns of the 1913 harvest season. From a field measuring 38 acres, J. N. York, a farmer at that point, harvested 1103 sacks of extra fine wheat, indicating an average yield of a fraction over 77 bushels per acre.

The dance given on Saturday night by the baseball boys was well attended and all reported having had a most enjoyable time.

Mrs. C. A. Stewart has returned home from Portland, having been called there by the death of her mother, Mrs. Jacob McDuffee.

Miss Elizabeth McGaw entertained at a week-end house party on Saturday evening at their summer home on Sandy road. The evening was passed in games and music and a lunch was served by the bonfire. The crowd was chaperoned by Miss Effie Baird. Those enjoying the evening were the Misses Nirma and Frankie Coykendall, Edna Gray, Mabel Williams, Mildred McCauley, Messrs. Hugh and Francis Smyth, Sophus Blohm, Charles McDonald, Fred and Theodore Blohm.

It is estimated by an expert that the apple crop this year will make only 1,784,535,600 apples pies, or about 20 pies apiece. Nothing is said about the size of the pies but if they are "the kind that mother use to make" the knowledge is appalling. Perhaps bakery pies were meant, in which case it would be no hardships to make the whole crop into cider. If some of the Hood River samples we saw in the stores last winter are to be counted as filling for the pies we would suggest that they be used for stock food instead.
