"The Linotype Way is the Way that Wins."

Official paper of the Town of Gresham, Oregon.

NATIONAL CITIZENS' LEAGUE.

The National Citizens' League for the promotion of a Sound Banking system is an organization of business men, bankers and farmers, having its headquarters at 223 West Jackson boulevard, Chicago. It has no bill for banking reform. It has not espoused any plan. It stands ready, it announces, to endorse any measure which is sound fundamentally and promises to remove the handicaps under which the American business man does business today. It has 10,000 earnest members in all parts of the United States, with organizations in forty-four of the states. It is carrying on a patriotic campaign, and it deserves the active support of every patriotic citizen.

Membership in this League costs a dollar. The dollar goes toward the support of the League, but the memberships have paid only a small part of its expenses. The greater part has been contributed voluntarily by business men who realize that the League's unselfish work is for their ultimate benefit.

Members of the League receive free a 450-page book, "Banking Reform," which is the most complete untechnical explanation of this great public issue ever put forth. It is substantially bound in cloth and printed in large clear type. Members receive also a monthly journal issued by the League, which tells of the latest developments in the campaign for banking reform and explains various points of our banking system lucidly and authoritatively, for the man in the street.

Every business man, every man who has his country's greatest good at heart, should join this League.

General Diaz has found kindred spirits in the Japanese. If Mexico has attractions for the yellow people we of this country need have no objections. Birds of a feather flock together, but Japs and Americans are not members of the same flock. Perhaps the Japs and Greasers are.

California is up to her old tricks again, using Oregon scenery for pictures on their grape and wine labels. It is only a few years ago that Oregon products such as wheat and salmon were shipped all over the world with California tags on them. It is difficult to get full recognition for our products, but perhaps the Panama exposition will open the eyes of the world that Oregon produces something herself.

The Portland club of the Pacific coast league has the elevator working and is at the top story, but the machinery seems to be greased for another descent.

That new ice rink in Portland is going to put the brakes on roller skating for awhile anyway.

Scarcely a paper lately that doesn't mention the death of a prominent person we nearly all knew. So many of the great men are dying off that we feel a little shaky ourselves.

"Portland will have a milk show in a few weeks, with an exhibit showing the wrong way to produce and handle milk. Will that include milking a kicking cow on the right side?"—Oregonian.

Probably not. City instructors, city newspapers and city people generally nearly always imagine a milking scene with a pretty milkmaid on the left side. That show should be held in the country with country people as instructors.

The Best Pain Killer.
Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn, or scald, or other injury of the skin will immediately remove all pain. E. E. Chamberlain, of Clinton, Me., says: "It robs cuts and other injuries of their terrors. As a healing remedy its equal don't exist." Will do good for you. Only 25c at all Druggists.

The Mexican barbarians may kill Special Agent John Lind, but it is not likely that they will otherwise "monkey" with him.

Permanent world-wide peace does seem a long way off. Well, there are certainly lots of people who need licking—probably also many who want to lick the others.
