 Way is the Way
 that Wins."

Official paper of the Town of Gresham, Oregon.
 Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the postoffice at Gresham, Oregon, under the act of March 3, 1879.

GLASS FACTORY NEEDED.

One of the needs of a city as big as Portland is a glass manufacturing establishment. The statement is made that a million dollars a year is paid for glass bottles alone in Portland and the statement is probably correct. One firm of bottlers spends \$50,000 a year, and there are several big firms besides the numerous small ones that have to use bottles every day by the thousand.

The making of common glassware is a simple affair, nor does a factory cost much. Five thousand dollars would be ample to start with. Such an establishment could be added to as necessity requires.

In the making of glass a peculiar quality of sand is required, but it is available in several localities distant from here but its transportation would be cheaper than that of the finished product, and the nearness to a ready market would be in favor of establishing a factory here. Another inducement would be in the use of broken glass which could be all used over again, and which is now thrown away.

Gresham is the logical site for such a factory and the Commercial club should make an effort to have one located here. An expert in the business is living at Mount Tabor and a little encouragement would probably induce him to embark in the business. It is worth trying for.

As a token of the high esteem in which he is held by his former associates in the Portland Railway Light & Power Company a banquet was tendered to B. S. Josselyn, ex-president of the company, upon the eve of his departure for New York last night in the Commercial club at Portland. There were seventy in attendance, with Franklin T. Griffith, recently elected president of the company, acting as toastmaster.

After a brief introduction by the toastmaster, who called attention to the work performed by Mr. Josselyn during his six years' residence in this city, the honored guest responded. He declared his love for Portland, and while his removal East was in consequence of a wide field for his operations, he would look forward to his eventual return to this city—as his real choice for a home.

"I have made a host of friends during my stay here," said Mr. Josselyn, "and to me they are dearer than anything else."

Addresses were made by Frederick V. Holman, who referred to Mr. Josselyn's work of cementing the allied companies which compose the present traction company as the work of a master builder. Charles F. Swigert referred to the early beginnings of the company and its present huge proportions as being an important factor in the remarkable growth of the city.

Members of the Woodmen of the World, of whom there are a large number in and around Gresham are interested in the outcome of the conference which is being held at Denver by delegates on the subject of the separation of the Pacific Jurisdiction from the sovereign body, or the eastern jurisdiction. Delegates from the Pacific Jurisdiction went with instructions to vote for separation and independence. J. O. Wilson, clerk Multnomah Camp, said yesterday that the result of the conference will be received here soon. He said that if the separation was decided on the name of the Pacific Jurisdiction would be changed probably to "Western Woodmen," or "Woodmen of the West."

The sovereign jurisdiction has property assets amounting to about \$15,000,000 and has 600,000 members, while the Pacific Jurisdiction has 100,000 members and its assets are \$6,000,000.

Vancouver, Gresham and Canby slipped their fairs through during a remarkable spell of good weather. Perhaps the state fair is also going to get through without its usual bath after all.

A large delegation from Sandy attended the Gresham fair on the last day and it would be a graceful courtesy for a large number from here to return the visit next Friday and Saturday. The two-days' fair is going to be worth while and there will be dancing both nights.

Sir Thomas Lipton is coming over again to have another try for the America's cup. He might use a four-leaf clover this time for a mascot, or possibly a shillalah would be more effective in getting the cup into his possession.

Swan Island will sing its swan song if Mayor Albee is to have his way. He advocates its removal so as to enlarge Portland harbor and give an unobstructed channel down the river.

News items from the county court is a new feature commencing this issue of the Outlook. They are furnished by the county commissioners and will be of interest to all taxpayers.

Open Season for Pheasants.

Following is the open season on upland birds beginning with tomorrow; October 1, to October 31 in all counties west of the Cascades excepting Jackson, Josephine, Coos and Curry. There is no open season on bobwhite quail.

The open season on ducks and geese for Multnomah county began September 15 and ends December 31. The silver gray squirrel may be killed during October only. The season for buck deer ends October 31; also for doves and wild pigeons.

Following are the bag limits: Pheasants and grouse—Five in one day or ten in any seven consecutive days.

Doves and wild pigeons—Ten in one day or twenty in any seven consecutive days.

Ducks, geese, rails, coots and shore birds—Thirty in any seven consecutive days.

Quail—Ten in any seven consecutive days.

Silver gray squirrels—Five in any seven consecutive days.

Deer, with horns only—Three during any open season.

Bridges to Be Inspected.

The general road superintendent of county road has been instructed by Commissioner Holman to inspect the condition of the Sandy bridge which is situated near the country club house on the Base Line. There is considerable travel over the bridge and its condition will be looked after before the fall rains shall raise the river.

Cross-road Graveled.

The road running north and south, connecting the Base Line and Sandy roads, near the Eleven-mile post has been gravelled with material from the Gresham pit. Petition for this improvement was made to Commissioner Holman by Mrs. C. A. Donagh, R. H. Cayzer and others, residents of Cleone.

Regulating Loads.

Road Supervisors J. B. Smith, A. H. White, O. F. Falkenberg, J. M. Hillyard and Grant Bell met with the board of county commissioners yesterday to discuss the proposition of regulating the weights of loads to be hauled over the different roads of Multnomah county.

The successful man never tells you what he is going to do next.

If it is the right kind of a home a boy will never run away from it.

What do you think of it? Frost in the "Sunny South" and we have not yet emerged from that "good old summer time."

The young man who shows up with an engagement ring is apt to get the glad hand.

Not many besides bankers and editors will read the currency debates.

One pretty girl will inspire more feminine envy than a dozen clever ones.

The summer is over, but the water is fine yet.

The time of a multitude of pheasants is very brief now.

The records have rarely if ever disclosed fairer, finer September.

Do You Fear Consumption?

No matter how chronic your cough or how severe your throat or lung ailment is, Dr. King's New Discovery will surely help you; it may save your life. Stillman Green, of Malchite, Col., writes: "Two doctors said I had consumption and could not live two years. I used Dr. King's New Discovery and am alive and well." Your money refunded if it fails to benefit you. The best home remedy for coughs, colds throat and lung troubles. Price 50c and \$1.00. Guaranteed by all Druggists.

Oregon Prune Crop of Fine Quality.

From the Eugene section comes the information that while the 1913 prune crop is larger in volume than for several years, the fruit ranges relatively small in size. The Eugene evaporating plant is running to full capacity and is putting about 800 bushels of prunes through the drying room every twenty-four hours. Packing of the dried fruit for shipment will begin in about ten days.

It is stated that an unusually large proportion of the prune crop is being marketed as fresh fruit than ever before and this fact, in connection with the unfortunate prevalence of dry rot in nearly all sections of the state, is expected to result in a marked decrease in the dried product. Early quotations for dried prunes are very attractive, indications pointing to an unusual European demand later in the year.

Physical Training College Requirements.

Based on the proposition that no other single factor in life is so essential to success as physical efficiency, recently stated by President W. J. Kerr, regulations which provide for compulsory training at the Oregon Agricultural College have been adopted and formally announced. The president further pointed out that fields, buildings and equipment for this important branch of work have been provided as considerable cost, and the athletic fields and open play grounds are undergoing improvements to make them sanitary, convenient and attractive.

"Those of you who are in college for the first time," said President Kerr, "will experience a wider freedom than you enjoyed in the high school, where discipline was necessarily closer. In choosing your recreations you will be expected to provide for suitable physical exercise, and it is hoped that much of this will be taken in out-door sports. While the evolution of your lives has brought you greater freedom, it has brought greater responsibility as well."

"One gets from College just what he puts into college. You are here to succeed, and it must be now. Accomplish all you had in mind, and do not dissipate your energies in useless, or in too many, activities. The principal things in your school life are your study and class work. To do these things is the purpose of your being here. But do not neglect the proper care of your bodies. Take useful and pleasant exercise every day, in-doors or out-doors, and the time required will not be lost. Be an active member of the athletic society of your choice; there is no room in any institution for drones and idlers."

The region around Dallas has this year turned off an immense crop of hops of unusually high quality and for some time the city has been overrun with buyers who are anxious to relieve the growers of their holdings. A few sales have been made at twenty-six cents but many of the farmers are holding for better prices and it is thought there will be no general unloading until the price reaches 30 cents. Shippers are having difficulty in securing cars to handle the hops and, as the warehouse is full, the delivery of the product will have to stop unless the car shortage is relieved.

C. C. Moore, of the United States department of Chemistry, has been in Oregon for two weeks studying the adaptability of Oregon potatoes as a raw product for the manufacture of starch. He has declared his faith in the possibility of establishing factories for the manufacture of starch and glucose from potatoes and has had a meeting with prominent Portland business men with this end in view. It is stated that the Pacific Northwest at present consumes about 10,000 tons of starch per year, practically all of which is shipped from the East. The establishment of a starch mill in Oregon would supply this annual demand and would also provide an outlet for surplus spuds during seasons of low prices.

Don't Let Baby Suffer With Eczema and Skin Eruptions.

Babies need a perfect skin-covering. Skin eruptions cause them not their growth. DR. HOBSON'S ECZEMA OINTMENT can be relied on for relief and permanent cure of suffering babies whose skin eruptions have made their life miserable. "Our baby was afflicted with breaking out of the skin all over the face and scalp. Doctors and skin specialists failed to help. We tried Dr. Hobson's Eczema Ointment and were overjoyed to see baby completely cured before one box was used" writes Mrs. Stubler, Dubuque, Iowa. All druggists, or by mail, 50c. Pfeiffer Chemical Company, St. Louis, Mo. Philadelphia, Pa.

The Outlook has on hand a large quantity of school report cards on good quality of Bristol, also printed envelopes; samples free, to any school clerk or teacher. Price 2 1/2c each; over 100, 2c each. Postage additional, 5c for 25 cards.
