Oregon's first referendum election is a matter of history. Principles of great moment were involved, moral, social, educational and financial. The life of one of our greatest educational institutions was at stake. Bills carrying the vast sum of \$1,415,000.00 were passed upon by the voters who took sufficient interest in the welfare of our commonwealth to come out to the polls. Seventy per cent of the voters stayed at home. Many of these have children to educate. Some are credited with being taxpayers. Most all of them at least have jobs. Some who stayed at home didn't even manifest sufficient interest to ask, next morning, how their precinct went on the great questions at stake.

What's the matter?

Mr. and Mrs. H. W. Snashall entertained a Halloween party from the city. A five hundred card club came out and stopped at the sign of the jack o' lantern. The rooms were decorated with autumn leaves and cosmos. Mr. and Mrs. Barringer took the two first prizes. Dr. Vogie received the booby prize, which consisted of a big pumpkin as large as he could carry. After the prizes had been awarded, the company sat down to a chicken supper and other good things too numerous to mention. The party left at a late hour saying they had the time of the season.

Declare War on Colds.

A crusade of education which aims "that common colds may become uncommon within the next generation" has been begun by prominent New York physicians. Here is a list of the "don'ts" which the doctors say will prevent the annual visitation of the cold:

"Don't sit in a draughty car."
"Don't sleep in hot rooms."
"Don't avoid fresh air."
"Don't stuff yourself at meal time. Overeating reduces your resistance."
To which we would add—when you take a cold get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by Gresham Drug Co., and all Dealers.

NOTICE TO TREE PLANTERS

NOW IS THE TIME to plant your Trees and Shrubbery, either for home or commercial orchard—for the winter rains will pack the ground solid around the roots—then when Spring comes your trees are ready to absorb all nourishment and make their growth. Planting in the Spring is not as satisfactory, since the soil does not pack thoroughly around the roots, hence the tops do not receive the proper nourishment and the growth of the tree is retarded.

You'll find at the GRESHAM NURSERIES a complete line of Apple, Pear, Peach, Plum and Prune Trees, also a limited number of Dwarf Pears, Shade Trees and Roses—all high grade stock and far below the average price, for quick selling.
