

NOTICE TO TREE PLANTERS

NOW IS THE TIME to plant your Trees and Shrubbery, either for home or commercial orchard—for the winter rains will pack the ground solid around the roots—then when Spring comes your trees are ready to absorb all nourishment and make their growth. Planting in the Spring is not as satisfactory, since the soil does not pack thoroughly around the roots, hence the tops do not receive the proper nourishment and the growth of the tree is retarded.

You'll find at the GRESHAM NURSERIES a complete line of Apple, Pear, Peach, Plum and Prune Trees, also a limited number of Dwarf Pears, Shade Trees and Roses—all high grade stock and far below the average price, for quick selling.

Place your order at an early date.

Good School Lunches and How to Prepare Them.

As nourishing and palatable lunches are fundamental factors in the health and activity of children in school, mothers should know what material to use in preparing school lunches, and how to balance, cook and prepare them. The sandwich is the basis of all school lunches, but it should be varied from day to day in form and material. And as the sandwich is varied so must be the accompanying food materials if the proper nutritive ratios are successfully maintained.

Here are five scientifically selected sample school lunch menus prepared by Hazel McKee, a senior in the domestic science course at the Oregon Agricultural College:

No. 1. Plain bread and butter sandwiches; bottle of milk; 2 or 3 cubes of sugar; tapioca pudding; fresh prunes.

No. 2.—Brown bread and butter; chicken sandwiches, bottle of milk; sponge cake; raisins and nuts.

No. 3.—Nut and celery sandwiches; two boiled eggs; bottle of milk; cornstarch mold; two cookies; pears.

No. 4.—Peanut butter sandwiches; egg sandwiches; bottle of milk; graham crackers; orange cream; grapes.

No. 5.—Sardine sandwiches; fruit and nut sandwiches; bottle of milk; small piece of chocolate; cup custard; apples.

How these and other savory morsels are prepared and arranged in suitable lunch carriers, is explained in detail by Mrs. Calvin, Professor of Domestic Science at the Oregon Agricultural College, in Extension Bulletin, The School Luncheon, series 3, No. 5. This bulletin may be had free of cost by addressing R. D. Hetzel, Extension director, Corvallis, Oregon.

A Night of Terror.

Few nights are more terrible than that of a mother looking on her child choking and gasping for breath during an attack of croup, and nothing in the house to relieve it. Many mothers have passed nights of terror in this situation. A little forethought will enable you to avoid all this. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. Keep it at hand. For sale by Gresham Drug Co., and all Dealers.
