**Protect Yourself Against Adversity By Opening an Account in Our Bank.**

A man without a bank account is one without economic reserve power. He is not in a position to ward off the sufferings which are almost certain to come to persons depending wholly upon their ability to labor and upon the demand in the community for their services. He and his family are continually in danger of sinking beneath the poverty level.

**FIVE OR TEN YEARS FROM NOW**

will you be possessed of a reserve sufficient to prevent you from being continually haunted with the spectres of want and hunger? That depends on whether you save, regularly and systematically, a certain portion of your income, and bank it where it can grow and be completely protected. Systematic weekly deposits become a strong incentive to save and spare you the temptation to spend which comes when you carry all your money in your pocket. We are sure we can help you. Let's try it.
