A CONTINUOUS PERFORMANCE.

Ireland is never happy unless it has a Donnybrook fair of some kind going on all the time. It is a continuous performance, a national vaudeville, and to the outsider is somewhat more amusing than to the people engaged in the pastime of looking cross-eyed at each other and in making faces at England.

The latest stunt has been precipitated by the attempt to deprive Ulster of the means of revolt by refusing permission to ship arms into Ireland. By doing so England has deprived the Ulster province of all excuse for revolt. The quarrel is really one between the protestants and Catholics, as a majority are of the latter faith and will hold all power. The Ulster rebellion is a revolt of the protestants, who prefer England's authority to home rule dominated by a Catholic parliament. The Irish are not asking for independence but for the privilege of managing their own internal affairs as is enjoyed by the states of this country. England is ready to grant home rule on terms laid down by herself and in the long run that is about all Ireland will ever get.

All preparations for the Outlook holiday number of 12 pages are complete and considerable copy for it is in type with more ready. Our correspondents are requested to have their several localities represented with a big grist of news in time for us to publish everything of interest. Those who may want advertising space have only to let us know as soon as possible.

The central library reports for November show that 87,000 volumes were circulated from the central library and its branches. This is the largest circulation in the history of the library. The work is rapidly increasing, not only at the central library building, but throughout the county.

Maurice Mann took sixteen prizes on guinea pigs—and two silver cups besides. Maurice is only 12 years old and is making \$35 a month in doing something no one ever thought of before in this part of the country. Maurice has the "makins" in his make-up.

Multnomah county must pay the bills for lighting the bridges across the Willamette. It is likely that the county will also have to pay the insurance companies liable for damages to wiring on the Broadway bridge, due to the recent fire there.

We should wonder where the express companies are going to "get off at" with the parcel post netting \$30,000,000 the first year and the weight limit to be increased to 50 pounds. Next year the profits will be even greater.

Statistics gathered at the poultry show held in Portland last week show that poultry and poultry products annually add more wealth to the state than does fruit, three times as much as wool, one and a half times as much as hops, nearly half as much as wheat and represents about 6 per cent of the total agricultural wealth of the state. It has heretofore been claimed that Oregon is not a poultry state, but with our agricultural college devoting time and money to the improvement of existing breeds, a great deal of interest in the industry is being aroused.

For the past two months a party of deputy game wardens has been busy locating the boundaries of the new game refuge, 36 miles square, lying in Lake and Crook counties, in the central part of the state. The primary object in establishing this refuge is the protection of the mule deer and antelope which are still found in considerable numbers in that vicinity. The refuge is also a sort of natural park, containing many hot springs, lava beds, medicinal lakes and other objects of interest to the tourist and naturalist.

From a financial standpoint Oregon is distinctly all right. A statement just issued by the state superintendent of banks calls attention to the fact that the present cash reserve is 34.8 per cent, nearly 10 per cent more than required by law. Deposits in the 170 state banks and 86 national banks have increased \$7,084,558 during the past year while total resources have increased \$9,596,338. The 256 banks in the state show total deposits of \$132,762,157, with total resources of \$169,462,838.

The State University will this year reach easily twice as many Oregon people as it reached last. In the correspondence and extra-mural departments there are about 500 registered this fall. The teachers' institutes are being covered thoroughly through the Extension lectures. In mathematics alone, 150 are enrolled in the correspondence courses, and the Extension department reports finding mathematics by mail gets real results.

The first spadeful of dirt on Jackson county's new highway over the Siskiyou was turned last week by Samuel Hill, the noted good-roads expert. The work of grading the 13 1/2 miles of mountain road has been undertaken by a Tacoma firm of contractors at a contract price of \$107,000 and will, as far as possible, be completed during this winter in order to have a settled roadbed ready for surfacing early in the spring.

The annual state convention of county commissioners will be held in Portland tomorrow. Roads of all kinds will be discussed during the three days' session. The matter of county roads running through incorporated towns should be one subject for debate.

Federal Judge R. S. Bean has decided that the government prohibits the shipment of liquor from another state into dry territory. This is the first ruling on that point and is of great importance. The shipment of liquor within state boundaries was not affected.

The cabinet ladies at Washington "backed up" and will call on the congressmen's wives. Lafferty is unhappy now.

Portland is voting on 15 charter amendments today. Unhappy Portland.

An ad. in the local newspaper is a good investment that all merchants can afford to make.

APPEAL TO PUBLIC FOR EARLY BUYING

To the Editor:—I want to beg space in your valuable paper for an appeal to the public on a matter of much more importance than many as yet think.

It is the matter of early holiday shopping. There are very few who have not heard this appeal from many sources before, but many, very many, have not been moved by it as they should.

As Labor Commissioner, charged with the protection as far as possible of the workers of Oregon, I add my voice to the appeal to everyone to shop early.

Do your shopping early in the month, early in the week, early in the day. Observe all three of these important points and you will do justice and mercy that will be appreciated by thousands of overworked saleswomen and salesmen, and by thousands more who realize the importance of such action.

Shop early and in broad daylight. Don't allow yourself to linger with the thoughtless throng after the evening shadows begin to fall. Do this and the fervent "God bless you" will spring from the hearts of tens of thousands of shop-girls ready to collapse from fatigue of the day of the hardest kind of work.

Have you any idea of the work of both brain and body of the average saleswoman, particularly in the city or larger town? I dare say you have not—not one in fifty of you. On their feet all day, running hither and thither, harassed by the whim and often by the rebuke of all classes of men and women in all stages of nervous tension. A more fatiguing occupation is unknown. Think of it, please, and lend your reasonable assistance by forming habits that will add just as little as possible to the general strain.

It is at these rush seasons when the incentive is greatest to break the law governing hours of employment. And this is natural. Merchants strive to please their patrons and to accommodate the public in every way. Surely the public, also, has some responsibility. If the law is violated, those charged with its enforcement must act or be justly censured.

From every conceivable viewpoint the appeal for early shopping is of vital merit, and I urge upon one and all the importance of co-operation both in their personal acts, and in helping by verbal appeal, to secure the most general observance of so worthy a principle. O. J. HOFF, State Labor Commissioner.

HAVE CHANCE TO VIEW OREGON SCENES

What Oregon needs in the way of advertising and how to get it, was outlined clearly by a number of prominent speakers at a monster convention held the past week at Roseburg. More than 1000 persons representing practically every line of commercial activity in the Northwest, attended the meeting, and they pledged unanimous co-operation to support a statewide exhibit at Ashland during the period covered by the Panama-Pacific exposition at San Francisco. "Ashland is the natural gateway of the Northwest," said Tom Richardson, the originator of the movement, "and it is the first impression that counts."

An official of the Southern Pacific who is also closely connected with the exposition, announced that stop-over privileges would be included in all tickets over his line, that the railroad company is anxious to further any movement which will result in an increase of population in the Northwest and is willing to bear a fair share of the cost of the work.

How to Bankrupt the Doctors. A prominent New York physician says, "If it were not for the thin stockings and thin soled shoes worn by women the doctors would probably be bankrupt." When you contract a cold do not wait for it to develop into pneumonia but treat it at once. Chamberlain's Cough Remedy is intended especially for coughs and colds, and has won a wide reputation by its cures of these diseases. It is most effectual and is pleasant and safe to take. For sale by Gresham Drug Co. and all Dealers.

California Woman Seriously Alarmed. "A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of annoyance. I would have had coughing spells and my lungs were so sore and inflamed I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, saying she had used it for years. I bought a bottle and it relieved my cough the first night, and in a week I was rid of the cold and soreness of my lungs." writes Miss Marie Gerber, Sawtelle, Cal. For sale by Gresham Drug Co. and all Dealers.

NOT TO BE EXPECTED. Hewett—"Does the climate agree with your wife?" Jewett—"That's more than I'd expect of any climate."

The Best Light

AT THE LOWEST COST

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light.

ELECTRICITY can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore,

ELECTRIC LAMPS can be located in any place, thus affording any desired distribution of light.

NO OTHER LAMPS possess these qualifications, therefore, it is surprising that

ELECTRIC LAMPS are rapidly replacing all others in modern establishments.
