## Columbia Heights

At this writing the Heights is covered with snow, it is freezing a little, the air is snappy and there is a general feeling that winter is in earnest. However, this kind of weather never lasts long here, and we hope mother earth will be able in a few days to assume her customary appearance.

If anybody would ask you what the excitement was all about in our town, the answer you would get, would be, Oh, it is all highway talk! But it is safe to say that the ranchers here will fight the paved roads. In the first place, all the ranchers are almost all in debt, and are, and have been striving for years to get in shape before old age will prevent them to take active part in the hard labor, that is connected with farm life, to have their home free from any incumbrance. For years we have been patiently waiting to get our main roads graveled, which have in the greatest part of the year been in such condition, as to be almost impassible.

And now there is a great stir up, just to get a road that will suit the speed demons, never mind whether the farmers can get out with their teams or not, and not even that, but the farmers must pay for the fun of the autoists. Well, there is some talk here, of calling a mass meeting and getting the ranchers together to see what measure shall be taken in regard to stopping the paving of our highway. All we ask for is a good graveled road, and if the auto clubs wants paved roads, let them pay for it.

The social committee of the grange will give an entertainment next Saturday night, January 31. Everybody is invited.

# How About Your Future?

A NEW YEAR lies before you—another twelve months of fresh opportunities. No matter what the old year brought for you, this year comes with fresh assurance of success—with new chances to "make good." But what you accomplish—how you use these opportunities—is entirely a matter for YOU yourself to determine.

If you like your present work—you are probably in the right line. Stick to it—and train yourself for a job higher up. If you don't like your work—if it offers you no chance for advancement—it's a safe guess that you are in the wrong line. And you had better look about you—and find out what work you do like—where your natural ability lies—and then train yourself along that line.

No matter how little progress you've made this year—whether you are in the right or the wrong line of work—if you will make up your mind to do it—with the help of the International Correspondence Schools can give you—you can wring success from the next twelve months.

For 22 years I. C. S. have been assisting men to get into lines of work for which they were best fitted—have been helping them to train and develop their natural ability—to qualify for better positions and bigger salaries. They can do the same for YOU, no matter where you live, what you do, how limited your education, or how little spare time you may have.

Just mark on the coupon the position you would most like, and mail the coupon to the I. C. S. Without obligating you in the least they will show you how they can train you for this job in your own home during your spare time.
