Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by Gresham Drug Co., and all Dealers.

Murphy's Plan.

A young Irish curate was preaching his first sermon, and chose for his text the miracle of the loaves and fishes. He was very nervous, and read it, "And they fed five people with five thousand loaves of bread and five thousand fishes."

Thereat one of his rustic hearers murmured, loud enough to be heard: "That's no miracle, begorra. I could do that myself."

The curate overheard him, and so on the following Sunday he announced the same text, but had it right this time: "And they fed five thousand people with five loaves of bread and a few fishes."

He paused a second, and then leaned over the pulpit and said:—

"Could you do that, Mr. Murphy?"

Murphy replied: "Sure, yer reverence, I could."

"And how could you do it?" asked the priest.

"Sure, yer reverence, I could do it with what was left over from last Sunday."

Another bill to abolish capital punishment will be inflicted upon the Oregon public next November. It is one of the penalties of the initiative privilege that the same measure may be brought up at every election. The law should be amended so as to make such action possible only at stated periods after a bill is once defeated.
