"The Linotype Way is the Way that Wins"

Official paper of the Town of Gresham, Oregon. Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

OUT IN THE COLD.

Election of officers of the Oregon state grange last week, as reported, shows that Multnomah county was left without representation. Not but what the elected officers are just as good as any that might have been chosen from this or any other county, but the fact reveals again the discrimination and prejudice that is always shown Multnomah in the state grange, as well as in other organizations, and emphasizes the fact that a few of the valley counties are in control of the grange and are determined to remain so to the detriment of the order in the state.

Up to six years ago the county of Multnomah was only able to occasionally get anything above the most unimportant offices. At the Eugene session a vigorous effort was made to get at least one of the big offices and the Multnomah members succeeded in getting the state lecturer. It has held that office since until last week. Now it is without anything.

A county like this, with ten flourishing subordinate granges and the largest of them all in the state, as well as the largest and best Pomona grange and fully one-eighth of the state membership gets nothing while Clackamas and Linn counties get about five officers each and all the most important ones. It is rather discriminatory and is apt to breed discontent. Wiser counsels should prevail among the delegates, but there is always a mad scramble for the offices and the present methods of representation allow two or three counties to control everything including the elections.

With all the prejudice that shows itself against Multnomah the granges of this county are going to remain loyal and work just as hard as ever, but it certainly seems as if the members of the order here are entitled to better treatment. Who will be the first to make excuses?

THE TAMMANY MANAGERIE.

The busiest American in public life today is District Attorney Charles S. Whitman, of New York. Crime and crookedness have no peace in Whitman's bailiwick. He keeps the Tammany animals moving, and he keeps them moving to effect. Already noted the country over for his sterling character, energy and fidelity he now exhibits a quality which makes the combination complete—the quality of highly efficient versatility.

With relentless persistency he uncovers the secret hiding places of graft and political iniquity in one quarter while he rips the veil of concealment from police corruption and wire-tapping swindle in another; at the same time throwing shocks of high voltage into irregularities connected with a hundred other shady transactions of the Tammany tiger.

The crooks in the New York police department have good cause to fear Whitman. The Rosenthal murder case and the attendant fate of his murderers recently executed, together with the second conviction of Lieutenant Becker are still fresh in the public mind. Whitman has demonstrated a marked aptitude for proceeding in all cases without fear or favor.

Credit is due the Oregonian for its recent plan of publishing all news of important transactions in real estate, new buildings and other improvements from its exchanges. The plan not only advertises every section of such business and encourages the local papers to greater exertion in reporting such items, knowing that they will get wider circulation through the Oregonian.

A Texas idea that all criminals are insane has been put forth in an attempt to have an asylum for such persons authorized by the legislature. The idea seems to be that no one but an insane person would commit a crime, and if acquitted they must be kept in restraint thereafter but are not to be considered convicts.

C. E. S. Wood has forsaken the Chamberlain banner and comes out for Progressive Hanley. If it is a scheme to elect R. A. Booth as U. S. senator it's a shrewd one, but what did Chamberlain do to Wood to merit such treatment?

Big Logs for the Oregon Building.

Within the past few days the logs which will be used as pillars around the Oregon building at San Francisco next year have been shipped. Of the total number of 48 logs to be sent, seven carloads were shipped from Portland, three carloads from central Oregon and one car from southern Oregon, while 12 logs will be sent by steamer from Coos Bay. The logs have been collected from various sections of the state and were donated by lumber manufacturers. The average weight of the logs is 29,000 pounds and there is only one derrick in this city which can handle them—that belonging to the O. W. R. & N. Co. on the Albina Dock.

The Oregon building at the exposition is to be of Grecian architecture on the plan of the Parthenon at Athens. The 48 log pillars surrounding it will be five feet in diameter and 45 feet high. They will be dedicated to the 48 states of the union and each will bear the emblem of a state.

One of the newest and most interesting crops raised in Oregon is the mint from which peppermint oil is extracted. In other sections of the country where this oil is an established product, the oil sells at \$3 to \$4 per pound. Experiments conducted in the vicinity of West Stayton, Marion county, indicates that this crop, when grown under irrigation, will yield at the rate of \$120 per acre. It is expected that a plant for distilling the oil will be erected at West Stayton and a profitable business in the shipping of plants to other sections built up.

The proposed meat ordinance, which has been before the Portland council for the past three months will come up for another hearing tomorrow, but it will probably be held over again for two weeks, when it will undoubtedly pass in an amended form. There is an indication that it will be contested after it becomes a law.

The English parliament has granted Ireland home rule by a majority vote of 77. Ireland bonfires are glowing but the struggle that has been going on since 1870 is only renewed in another phase. It will now continue between the two factions that are opposed to each other and a civil war is not improbable.

Lumber interests and creosote interests are uniting to establish a number of wood block paving plants in Oregon cities that have the raw material and go after some of the street and permanent highway business.

The Beavers will be in Portland again next week for a series of 19 games. They are now just one step above the basement floor and their luck while here will almost determine how they will come out in the finals.

The southern Oregon and northern California Mining congress will be held at Ashland early in July to revive interest in mining and minimize the evil effects of the Blue Sky laws.

A Frenchman died in Paris last week who had smoked 627,400 cigars. He is dead at the age of 77. It is said that smoked meat keeps the best.

Lieutenant Becker was convicted again but bets are about even that he will never suffer the extreme penalty.

The Malheur Enterprise says there will be general approval of the members of the legislature who put in their time swatting fool laws.

Judge McGinn holds that a railroad company is not liable for damages done a passenger caused by a wreck in a storm.

Construction of a water system for Coos Bay cities costing \$150,000 will be started at once and to be completed this summer.

Business men in the hop industry representing \$25,000,000, and a yearly output of five to six millions are organizing against prohibition.

Astoria is to get a street car line extension of two miles at the hands of the Pacific Power and Light Co.

A factory at Marshfield has been equipped with machinery to turn out fifty mattresses daily.

The Oregon Power Co. at Eugene is making special rates to induce factories to locate at that city.

Marshfield city and county officials are planning the construction of a boulevard to the ocean.

Keep Bowel Movement Regular. Dr. King's New Life Pills keep the stomach, liver and kidneys in healthy condition. Rid the body of poisons and waste. Improve your complexion by flushing the liver and kidneys. "I got more relief from one box of Dr. King's New Life Pills than any medicine I ever tried," says C. E. Hatfield, of Chicago, Ill. 25c, at your Druggist.

You will not come to want if you use the Want Ads.

Sandy

The Sandy Commercial club held a special meeting Friday night and made plans for a monster celebration on the Fourth of July. The usual stunts will be pulled off together with some extra attractions.

Paul Meinig has returned from a business trip to Oregon City. The Sandy schools closed Friday for the summer months.

One of the Junker stores has been fitted up for Henry Mills who has moved his confectionery stock there.

Fred Proctor has left the employ of the Sandy Fir Lumber company and is now acting as bookkeeper at the Clackamas County bank.

Jim Dixon is cruising timber near Cherryville.

Chas. Barber, of Portland, is spending a few days at his ranch. Warm rains are making the gardens and grain jump.

Ike Anderson is passing out ice cream and medicines for the Esson drug establishment.

The Sandy band will have charge of the dancing at Shelley's hall on the Fourth of July.

R. I. Anderson has moved his family from the Walton place to a ranch he recently bought near Pleasant Home.

The Firwood Industrial club will meet the third Friday in each month during the summer.

Joe DeShazer bought a sulky cultivator in Sandy Saturday.

Will Bosholm bought two registered and four high grade Jersey cows near Gresham Friday.

The Sandy Women's club will have charge of the literary and musical program at Meinig's park on the Fourth of July.

N. H. Schminky and A. J. Morrison, of Dover, spent Sunday in Sandy. William Fisher is building a barn at Bull Run.

Petitions for a union high school at Sandy have been circulated and signed up in Sandy, Firwood, Dover, Bull Run, Kelso and Cherryville.

The proposition will be voted on at the annual school meeting June 15 in the above named districts. If the measure passes, one member of the union high school board will be chosen from each district. The use of a room will be donated by the Sandy district. There is no good reason why this proposition should not receive favorable consideration at the hands of a good majority of the voters in the several districts. Such a school will be an invaluable asset to the community, will give your children of tender years a chance to advance beyond the eighth grade here near home at a small expense, will render a large service in keeping up the social as well as financial standards of this section. Keep your boys and girls at home. Give them a chance here. It is absolutely sure that the expense of a high school will fall below the one and a half mill mark. Bull Run district alone has an assessed valuation of over \$452,000. If you stand for educational and moral progress, for social advancement, and for a rising value of your property, vote "For Union High School—Yes."

Eyes tested and glasses fitted. Dr. Geo. Inglis.

LODGES AND SOCIETIES.

- COLUMBIA GRANGE—Meets first Saturday in each month. Master, R. P. Rasmussen; secretary, Mrs. J. Pounder; lecturer, George Klierom. Corbett, Ore.
