Overland Model 79

The Most Suitable and Sound Investment for the Whole Family

RIGHT now thousands of families are daily depriving themselves of an endless chain of economical pleasures, comforts and benefits that could be theirs just as well as not. Get a big handsome Overland touring car into the very midst of your family, and you increase the pleasures and broaden the viewpoints of everyone in the house.

Thousands could be enjoying a better life, a fuller life, and could be getting a whole lot more fun out of life if they had a spick and span brand-new Overland at their

beck and call. Ever figure it out that way? Well it's time you did.

Nearly 150,000 of the most substantial American families own Overlands. And every Overland owner is a loyal Overland booster. Find the Overland owner in your neighborhood. Get his experienced opinion. Talk to him before you make your decision.

He knows the difference.

Taking everything into careful consideration, the Overland is the most practical all-year-around-family-car on the market. It is not too large, nor is it bulky or cumbersome. On the other hand,

it is not small, dinky or stunted—but just the right size for the full comfort, and the complete and everlasting enjoyment of every member of your home circle.

It seats five large people with ease. No crowding, no jamming—just solid comfort all the time. Then—anyone can drive an Overland—father, mother, daughter or son. There is practically nothing to learn.

Soft, deeply tufted leather cushions and springs of exceptional elasticity allow you to take the roughest spots and hardest ruts without jerk, jolt or jar.

It is a big thirty-five horsepower touring car which gives you all the speed and power you will ever want.

The long wheel base, in addition to giving you ample leg room, also adds to the riding comfort.

So do the large tires.

And the price—

Other cars of similar specifications cost a great deal more. How much? That varies. But in practically every case a careful comparison will prove to you that an Overland costs a full 30 per cent less than any other similar car made.

In view of this can you afford to pay more for some other car that does not give you as much as you can get in the Overland?

Then again—The Overland is outselling every similar car made. This is a positive indication of how the buying public regards this car as against all others.

Remember the cost is 30 per cent less.

Summer is here. Get your family out of doors all you can.

There is an Overland dealer in your town. Look him up today. Catalogue on request.
