**The Banking Habit**

is universally conceded to be a good habit, and a good habit has been defined by someone as

**"YESTERDAY'S ACHIEVEMENTS TAKING THE STING FROM TODAY'S TOIL."**

This definition states the exact truth, based upon the experience of thousands of depositors throughout the world.

While you are forming this exceptionally good habit, you are accumulating a fund for future use. Life is worth living when you have money in the bank—it gets monotonous when you are broke.
