A SLICE OF PORK.

Gresham should get a government appropriation for the dredging and otherwise improving of Johnson Health at Portland." creek. To make the appropriation repectable it should be large enough to continue the improvements up the creek to Hogan or at Anderson or Pleasant Home. We demand a slice out of the pork barrel and ought to get it.

Our two senators at Washington are "in good" with the administration but it seems they are not treating us with due respect. The lower house of congress has just passed a river and harbor bill calling for an expenditure of \$93,529,475. It should be amended before it gets through the senate so as to increase the amount for the improvements specified above. Senators Lane and Chamberlain will not be doing their duty to Eastern Multnomah unless they can get a few more dollars

Where was Lafferty all the time that bill was pending in the house? It seems that he was remiss in his obligations to the people of Willsburg, Lents, Gresham and all the other ports on Johnson creek. We are amazed at his carelessness. Perhaps he will do better next time, now that his attention is called to the matter.

LEARN FROM GRESHAM.

Telephone companies all over the state are petitioning the Railroad commission for the privilege of raising their rates. The prevailing rentals are the same as those in force on our own line and it is surprising to learn that they cannot exist on the same income that ours does; besides, the Gresham company pays a 10 per cent dividend twice a year. Our local company with about 160 stockholders owning one share each, of a par value of \$25, has about 500 ow that the system is the most perfect in the state. Other companies should come to Gresham for instructions how to run their business.

A road contractor at Seaside was arrested for exceeding the speed lim- way to Hood River. it. His offense was in trying to get the work done before the Fourth, and he worked his men more than eight hours a day. Such a thing couldn't happen on the roads of Multnomah county.

When a man tells you that business is "rotten" just ask him how is own business is getting along. He will never knock himself and you vill be surprised to find that business is uniformly good in all lines.

Hood River Inspect the Highway.

In order to fully acquaint themselves with conditions along the new Columbia Highway five carloads of residents of Hood River county made the trip down the gorge on Thursday of last week. At Gordon Falls they were met by a delegation from Port land headed by County Commissioners Holman and after a picnic luncheon had been disposed of they were shown over the most scenic portion of the highway. After an afternoon spent in this inspection, Roy D. Smith of Hood River, one of the leaders in the movement for beter roads, prophesied that the Hood River bond issue would carry 3 to 1. "This road project has never been put up to me in the right way before," said Mr. Smith; "I've come to the conclusion that good roads are money in our pockets far more in amount than

At La Grande it has been decided to build a new exhibit hall near the depot. The building will be of modern design and will be so located that its contents can readily be seen from all trains. It will include an office for the county agricukturist, who will have charge of the exhibit.

What is regarded as the record return for one acre of cherries has been reported from Hood River where the grower received \$1300 for the crop on one acre of Royal Annes. This was the net amount received after all expenses of picking and marketing had been paid.
