The Banking Habit

is universally conceded to be a good habit, and a good habit has been defined by someone as "YESTERDAY'S ACHIEVEMENTS TAKING THE STING FROM TODAY'S TOIL"

This definition states the exact truth, based upon the experience of thousands of depositors throughout the world.

While you are forming this exceptionally good habit, you are accumulating a fund for future use. Life is worth living when you have money in the bank—it gets monotonous when you are broke.
