FIRE DAMAGES DAMMEIER'S HOUSE

An alarm of fire on Sunday forenoon brought out the fire department and half the people of the town to save the house and furniture of G. H. Dammeier, south of the O. W. P. station. The fire was discovered in the roof and burned slowly, allowing a hundred willing workers to save all the furniture while a chemical fight was instrumental in saving the building with its roof and sides burnt off to the ceiling of the lower story.

Fire Chief Jones made an examination after the fire was out and has come to the conclusion that the fire was caused by defective wiring. It is said that at least a hundred fuses have burnt out during the past year and that the fire started at a point where two wires were close together.

The loss will be about \$1000, including damage to the furniture. Mr. Dammeier and family are now living in a wing of the house that was not injured.
