Mr. Moulton is waging a vigorous anti-assembly, anti machine fight for the office to which he aspires. In his speech he will review the record of McArthur, his chief opponent, from the time he joined forces with Ormsby McHarg, to defeat Statement No. 1 and left the speaker's chair in the 1908 session of the Oregon Legislature to advocate the bill making it a felony to sign Statement No. 1, to the last Legislature, in which McArthur "steam rolled" the appropriation bill carrying unprecedented sums through the house over the governor's veto, thus raising the taxes of every citizen in the state, and put through a special bill creating vacancies on the board of county commissioners, and filling it with his uncle, Rufus Holman, who is also a brother-in-law of Dan J. Malarkey, president of the Senate. Other interesting disclosures will be made at Wednesday night's meeting.

**Connie Mack on Cigarettes.**

Mr. Connie Mack, manager of the Philadelphia Baseball club of the American League, which holds the world's championship of 1910, '11, '13 and the American League pennants of 1902, '05, says of the tobacco habit:

"There is very little cigarette smoking among our baseball boys. We do everything in our power to discourage the use of cigarettes, knowing the great harm that they have done to those who have been in the habit of using them. We find that those players who smoke never amount to a great deal in the profession, and I would say that this goes for all professions. It is my candid opinion, and I have watched very closely the last twelve years or more, that boys at the age of ten to fifteen who have continued smoking cigarettes do not as a rule amount to anything. They are unfitted in every way for any kind of work where brains are needed. Players, for instance, who should otherwise have continued in the game until they were at the age of thirty or thirty-five, have had to be let out years before their time, as the poison of cigarettes getting into their system has unnerved and weakened them so that they were utterly unfit for the duty they had to perform.

"No boy or man can expect to succeed in this world to a high position and continue the use of cigarettes. After all, it is only a habit, and every one should have will power enough to overcome such a habit. There are many other ways that one can enjoy oneself without the ruination of health, and this cannot be done if cigarette smoking is continued."

Governor Tener, of Pennsylvania.

Gresham

now president of the National League, said of Mr. Mack and his world-champion club:

"His success is largely due to the fact that he can put in the field a team of nine men who have not tasted liquor. Of that wonderful field of his, none ever tasted liquor, and but one ever uses tobacco. Connie Mack's success is substantial; every move he makes is with a definite purpose."
