College Year Opens.
Registration at the Oregon Agricultural College began Friday, September 18 and instructional work began on the Tuesday following. The number of upper classmen and graduates who returned to continue College work, is somewhat larger than last year. Owing to the higher standards of admission and to disturbed business conditions throughout the whole world, the number of freshmen entering show a slight decrease over the number last year. Entrance statistics have not been compiled but it is probable that the considerable number of vocational students will bring the total registration slightly in advance of that of last year. This is the first year in which vocational work, open to eighth grade students of required age and to more mature men and women, has been carried by the Agricultural college, and there are indications that the work of the course will attract a great many students. college buildings, grounds and equipment are in better condition for the beginning of the school year than ever before. Also thirty-nine new members have been added to the faculty, either to fill newly created positions or vacancies caused by resignation. The outlook for a good and prosperous year is exceptionally bright.
