"The Linotype Way is the Way that Wins."

Official paper of the Town of Gresham, Oregon.
Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

Albany is calling for bids for a new \$50,000 high school.

The new Pendleton hotel costing \$130,000 has been opened to the public.

Quarterly payment of taxes is a popular movement that would relieve industries in a practical way.

European war has demoralized the fruit industry and freak labor laws are crippling the canneries at home.

Proposed plans for the improvement of the old St. Johns road out of Portland calls for an expenditure of \$170,000.

Cyanide jumping from 19 to 75 cents a pound on account of the war is hampering the mining industry in Baker county.

Portland Catholics are planning a home for Archbishop Christie and other buildings for 1915, total improvements to cost \$250,000.

A Philadelphia doctor recommends a piece of tissue paper to be used when two persons kiss. It will now be in order to start a kiss towel factory.

The enactment of nearly thirty new laws on the ballot this year would be an industry at the expense of all other industries, says the Oregon Manufacturer.

The La Grande \$60,000 Elks lodge will be erected by the Palmer-Ellsen company of Portland. It will have Otis elevators and finished in Seattle terra cotta.

With all the county fairs off the program and the state fair ended, the politicians will have an opportunity to begin their campaigns in earnest next week.

A Benton county farmer reports killing a snake 22 feet long. Had 'em bad, but we wonder where he got the stuff that magnifies a man's vision to that extent.

The new Portland postoffice will have two floors devoted to mail work, and seven floors of offices for the army of federal officials and commissioners at Portland.

Pacific Coast Manufacturer; Government ownership of public utilities should not be used to break down investments of capital in public utilities if Oregon is to prosper.

Painless Parker was not the inventor of turpentine which the French are using with such deadly effect on their enemies. The ethical doctors have missed a rare opportunity.

The state railroad commission has protested against a three per cent tax on freight shipments as a means of raising governmental revenue to offset the effects of the European war.

Portland bankers recently returned from the banker's conference at Washington, D. C., state eastern factories are running night and day to fill orders brought about by the European war.

Hood River will can the surplus Newtown Pippins this year. There will be the consolation of knowing that fewer of their cull apples will be on the market next spring at first grade prices.

Governors Will Confer Regarding 1915 Tourists.

Fully appreciating the importance of the tourist travel from the East to the exposition at San Francisco next year, the governors of Washington, Idaho, Utah and Montana have been invited by Governor West to attend a conference on this subject to be held November 26 and 27 at the time of the opening of the Land Products Show in Portland. Governor Johnson of California has expositions at San Francisco and San Diego.

In addition to the invitation to the governors, requests have been sent to the immigration officials of the states named, and to this list have been added the prominent city officials of Portland, and the presidents of the Portland Commercial club and the Chamber of Commerce. This important conference will be convened at 2 p. m. Monday, November 26 at the headquarters of the Oregon State Immigration commission. Its purpose will be to devise methods of co-operation between the several states to induce 1915 exposition travelers to visit the Northwest states enroute and make stops therein at points other than the principal cities. It is believed that in this way the agricultural, timber, mineral and other natural resources may be seen to better advantage than by hurried inspection through a car window.

As an indication that Oregon has appreciated the importance of good roads and that the various communities have been willing to spend good money for good roads, a report recently compiled by the State Highway commission shows that during the period between 1903 and 1912, \$18,392,042 has been expended on roads and bridges in this state. This sum probably does not tell the entire story as the records of some of the counties were incomplete at the time the report was issued. The expenditures for the present year all over the state will doubtless be much heavier than in previous years, it being estimated that the total will exceed \$4,000,000. Jackson county will expend \$400,000 on the Columbia Highway, and Columbia county will spend \$315,000 on the same road.

Believing that the Oregon farm needs scientific business organization as much as does any corporation, and also that the Oregon farmer suffers more from inefficiency and leakage of cost items than from any other one cause, the United States government is preparing to place an efficiency expert in this state to co-operate with the county farm experts. These men will make a systematic survey of conditions and will formulate, if possible, a schedule of suggestions to eliminate present waste. This government expert will co-operate directly with the Oregon Agricultural college, the expense of the new line of work to be borne jointly by the government and the state.

On account of opposition on the part of fishermen throughout Oregon to the government policy in racking various streams, there is considerable danger that the artificial propagation of salmon and other game fish in the state will be discontinued. The Bureau of Fisheries has advised one of the Oregon senators that the work at the present time is very unsatisfactory on account of such opposition.

On Saturday of last week the Coos Bay band, of forty pieces, was entertained by the Portland Commercial club. During their stay they entertained Portland at a public concert, thus bringing Coos Bay prominently to the front and offering some of the finest music heard in the city for many months.

The Pacific Coast Condensed Milk company will immediately proceed to enlarge its Hillsboro plant to meet the demands of the constantly increasing offerings of milk. The new building will be of concrete 140x140 and when completed will give the local plant a capacity of 200,000 a day.

Bids being received for the reconstruction of the headworks at the intake on the East Fork of Hood River and construction of Main canal for an approximate distance of six miles.

Flies Destroy Cutworms.

Many cutworms have been parasitized by the species of blowfly that deposits its eggs on the cutworm's neck, whence the larva enters the worm and causes its death. In an insect breeding cage at the Agricultural College Professor Lovett found that about 80 per cent of the worms collected in the Willamette Valley are fatally infested. He hopes that this means a reduction of the pest that has wrought such havoc in clover fields and garden crops to a point of little importance for next year. He is very anxious for farmers to co-operate with this natural enemy of the cutworm by cleaning up and burning or plowing under all crop remnants, weeds and other trash of fields and roadways, which may offer breeding homes for the cutworm. All cutworms that have been parasitized by the Trachid fly may retreat to their winter home, spin their cocoon, and go into the pupa stage. But when the warm sunshine of next spring calls them to go forth as moths they will have been consumed, and in their stead there issues from the chrysalis not a cutworm, but a Trachid fly. If farmers will do their part, it seems that the cutworm pest will be cut off from serious damage, possibly for several years.

Special Attractions at State Fair.

Although the state fair, to be held at Salem, September 28 to October 3 inclusive, will consist of six solid days of entertainment for visitors, each remaining day of the week has been set aside for a particular subject, as follows:

Wednesday, September 30, Salem Day; Thursday, October 1, Portland Day; Friday, October 2, Press and Oregon Manufacturers Day; Saturday, October 3, Shriner's Day.

During the entire week the school children from all parts of the state will stage exhibits of field and garden produce, livestock and manufactured articles; there will be a boys' camp at which will be entertained the prize winners in the garden contests in the various counties. The exhibits brought to Salem by these young farmers will be carefully judged by O. A. C. experts and the final winners will be given one whole week, all expenses paid, at the exposition at San Francisco next summer.

On Thursday of last week the Radiators of Eugene entertained a special train load of Cherrians from Salem, giving them a luncheon at the Eugene Commercial club, an automobile trip about the city and then took them to the Lane county fair where a section of the grand stand had been reserved for them and from which they witnessed some remarkable racing. Later, the Cherrians were taken to the University where a dinner was served to them by the co-eds at the various sorority houses.

During the past two weeks the Portland office of the Oregon State Immigration commission has had a half-dozen men in the field listing farm lands for the benefit of prospective settlers, securing accurate legal descriptions, noting the physical character of the land and making a note of the prices at which owners are willing to sell. These listings demonstrate that there is available at the present time plenty of good, productive farm land at reasonable prices in nearly all sections of the state.

The Bend Commercial club has taken up with Senator Lane the matter of expending \$450,000 on the Deschutes reclamation project. The club asserts that the amount allotted to the Deschutes Valley by Secretary Lane, of the department of the Interior, will be lost to Oregon unless it is definitely assigned to some project before January 1.

Saint Johns reports only 77 students in the high school. Gresham has 90. The difference in population is about five to one in Saint Johns' favor. As an educational center Gresham seems to be coming to the front, judging from comparisons.

Notice of Marshal's Sale.
Notice is hereby given, that on Monday, October 19, at 10 o'clock a. m., at the City Hall, Fairview, Ore., there will be sold at public auction for delinquent assessments for the improvement of Harrison street, City of Fairview: Lot 7-8, Block 21, Mary K. Hiddleston, Quinton, Kansas, for \$38.82. By order of the City Council. J. H. SCHRAM, Recorder. Date of first publication, Sept. 18, '14. Date of last publication Oct. 16, '14.

Acute Indigestion.
"I was annoyed for over a year by attacks of acute indigestion, followed by constipation," writes Mrs. M. J. Gallagher, Geneva, N. Y. "I tried everything that was recommended to me for this complaint but nothing did me much good until about four months ago I saw Chamberlain's Tablets advertised and procured a bottle of them from our druggist. I soon realized that I had gotten the right thing for they helped me at once. Since taking two bottles of them I can eat heartily without any bad effects." Sold by all Dealers.

STOCKHOLDERS OF GRESHAM FRUIT GROWERS ASS'N

Please take notice that lumber for our cannery is on the ground, grading for the switch is completed and we must have money to pay our bills.

Kindly send in your payment on stock subscription at once.

Assessment No. 1 was due and payable on Sep. 1st, 1914.

K. A. MILLER, Secretary
at Bank of Gresham.

Dated at Gresham, Oregon, this 25th day of September, 1914.
