What wonder! Success to temperance work follows close in the wake of woman suffrage for what mother would vote for that which would send her son to the gallows or to a drunkard's grave, or fire a fiend's brain, causing him to lure her daughter to something far worse than death? Again we say, what wonder!

C. Taylor returned last week from a trip to Tillamook county and reports it a fine country. He was accompanied on his trip by F. L. Rugg of Powell Valley.

PORTLAND'S GREATEST LAND PRODUCTS SHOW

PORTLAND, Nov. 9.—(Special)—Portland's greatest exposition, the Manufacturers' and Land Products show, has brought under one roof in Oregon's metropolis the greatest array of products of the soil ever assembled in the United States besides magnificent displays by the leading manufacturers.

Thousands of people from all over the Northwest have viewed the exhibits and pronounced the exposition the most successful every held west of Chicago. The display of fruits, grains, grasses and vegetables has never been equaled at any exposition of the kind in recent years. During the last two weeks many cities and towns of the states have had special days at the fair, including the Willamette Valley country, Tillamook county, Clackamas county, Woodburn, Forest Grove and other places.

The exposition will not close its doors until November 14 and from November 8 until the closing night there will be many programs of interest. The working exhibits are of the highest character and testify to the large number of articles manufactured in Oregon with the "Made in Oregon" label going to all parts of the United States and foreign lands.

Besides the manufacturers' exhibits and the fine display of fruits, grains, grasses and vegetables, the hourly programs and special features have proven a great drawing card and there is something doing at the exposition afternoon and evening. Twice during the closing week many valuable exhibits will be distributed by the exhibitors. On Friday, November 13 a Chinese baby show will be one of the unique features and musical attractions of a high class order are daily attractions at the show.

The last week will bring to the exposition The Dalles, Hood River and other special days. The exposition is well worth a visit and railroad rates are an extra inducement for all to see the big exposition.

The Heppner Herald recently printed an interesting statement by W. O. Minor, the well known pioneer rancher and stockman of Eastern Oregon in which Mr. Minor said, "You wonder why I have been cutting down the number of head in my famous herd of cattle? It is because of the uncertainty of Oregon laws. I started in to build up a herd which could be continued through my life time. To build up a good herd requires years and years of time and you must figure at least ten years ahead if you would make the venture a financial success. A law entitled the Tuberculin Test was passed some few years ago and since then the fine stock business has taken a tumble with me. In the first place, it costs a breeder too much to send to Portland and it also takes too much time. Once it took me three months to fill the order of a Wyoming man who wanted to buy a good bull. In any case it takes from three weeks or a month and by that time the buyer generally looks somewhere else for his stock. California don't have any such foolish and impracticable laws and as a consequence the breeders of that state have been taking the business away from Oregon breeders for the simple reason that they are able to make prompt delivery. When I have a call for an animal I must send to Portland for a veterinary. His trip here costs me \$25 a day and you can readily see that such expenses soon do away with the profits.

By the vote cast at the last election the people of Oregon clearly instructed their newly elected lawmakers as well as old ones that they do not want any more industry killing legislation and if there was ever a time for the members of both houses to heed the wish of the people, now is the time.

There should be a gold medal given to each senator or representative who could figure out one law that would give encouragement for one new industry in Oregon.
