ALL THE DOINGS OF
'YOUR HOME TOWN'

[The Outlook reporters are hustlers and try to get every item about persons and events in the locality that is worthy of being printed. Mention of anything that might otherwise be overlooked will be greatly appreciated. You are no farther from the Outlook office than your telephone.]

Miss Myrtle Stanley returned home this week from Portland where she has been staying for several months past. She contemplates entering the high school next Monday.

John Brown returned home a few days ago from a trip to his gold mine near Glendale. While there he completed filings on the water rights of the stream near the mine which gives him full control of the water for mining purposes. He is negotiating a sale of the property and may hear in a few weeks that it has been taken over by some capitalists.

E. Gurney with the Unique Brick and Tile Co., was in town yesterday. He says he has been instrumental in getting a reduced price on the shipment of brick on the P. R. L. & P. from Hoover station to Gresham. The rate now is 50 cents per thousand from either Hoover or Hogan, where it was formerly one dollar from Hoover. This gives a splendid advantage to builders in using brick and the Unique Brick company's product is one of the best.

At the Methodist Episcopal church Sunday there will be preaching at 11 a. m. by Rev. Melville T. Wire. At 7:30 p. m. there will be preaching by Dr. H. J. Talbot, Dean of Kimball School of Theology, who comes in place of Doctor James Moore, District Superintendent. There will be special music at these services. Sunday school at 10 a. m., Epworth League at 6:45 p. m.

A fire was discerned on the railroad trestle spanning Johnson creek yesterday, and was gaining good headway when extinguished. Only a few ties were scorched. The fire was caused by a fusee which fell from the express car. The blaze was discovered by David Weaver, who gave the alarm to the station.

John A. Honey, cousin of the Honey brothers, was in Gresham yesterday on a visit. He is the state agent of the Northwestern National Life Insurance company, of Minneapolis.

A persistent rumor this morning that the Gresham freight auto truck had been smashed up and one man hurt was run down and found to be without foundation. A Sellwood car was damaged which gave rise to the rumor.

Sterling & Kidder sold Fred Kaster yesterday a porcelain, white-lined Colonial range for a birthday present to his wife. Mr. Kaster also bought a heater, presumably for himself.

Patrick and Jack Lynch are both ill at their homes on the Section Line road near Gresham, and have been under the doctors care. The elder Lynch is an old settler of this community, having lived on the ranch for 47 years.

The regular monthly meeting of the Volunteer Fire department will be held Wednesday evening, February 3. A full attendance is desired.

Mr. and Mrs. Carl Dahl are receiving the congratulations of their many friends on the arrival of a son on Tuesday evening, January 26.

Mr. and Mrs. D. B. Welty are rejoicing over the birth of a daughter on Sunday, January 24.

Geo. W. Page has received the sad news of the death of his father, Joseph Page, on January 26, at Pasadena, California. He succumbed to stonecutters' consumption after a lingering illness. He was 62 years of age.

Plans are under way for a benefit entertainment which is being arranged by the friends of C. A. Price and wife, to show in a substantial way their appreciation for these good people and their sympathy for them in their affliction. Mr. Price, who is an old and experienced violin teacher, has become nearly blind from cataracts and is unable to continue his work. It is expected that an operation will be undertaken on one eye within a few weeks and all are hopeful for an improvement in his condition. Definite plans for the entertainment have not been given out, but it is expected that it will be on Friday evening, February 5 and will probably be in Regner's opera house.

The Ladies' Aid society will hold a tea next Wednesday, February 3, at the home of Mrs. S. S. Thompson. Mrs. Jas. Sterling, Mrs. P. Michel and Mrs. L. S. Osborne will assist Mrs. Thompson as hostesses.

The subject of the Christian Science service will be "Love." The place is the I. O. O. F. building and the hour 11 o'clock. The public is cordially invited to attend the church services.

FARMERS' AND
HOME MAKERS'
WEEK BEGINS

The instructional work outlined in the Farmers' and Home Makers' week at the Oregon Agricultural college, which will be held for six days, beginning next Monday, contains much of interest to those who will attend.

There will be a number of conferences, receptions and demonstrations along every line. Ample accommodations will be furnished. Railway fares have been reduced. Elaborate displays will be on exhibit during the week which will feature the demonstrations.

Every day from 12 to 12:30 o'clock there will be a general assembly in the Women's Gymnasium, at which time there will be offered a program of music, dramatic readings, and addresses by some of the best talent the state affords. Every evening at 7:30 o'clock in the same building there will be programs consisting of music, moving picture exhibitions, and lectures by prominent speakers and leaders.

Friday evening at 7:30 o'clock there will be a horse show in the Armory.

The College has been successful in securing some very able talent to assist in the instructional work, among others, Dr. C. B. Smith, Mr. O. H. Benson, Mr. W. D. Working, and Mr. C. E. Bassett—all of the U. S. Department of Agriculture, Washington, D. C.; Mrs. Nellie Kedz-Jones of Ambrundale, Wisconsin, C. H. Eckles of the University of Missouri, and President N. D. Showalter, Washington State Normal School. Many prominent men and women of the state will also take part in the programs. Besides those whose names appear on the following programs, there will be Governor James Withycombe, Dr. C. H. Chapman, Dr. Wm. T. Foster, Mr. Grant Dimick and others.

All lectures and demonstrations appearing in the various conference or organization programs are open to everyone. It is urged, therefore, that these programs be carefully studied.

The program has been so arranged that those who are able to come for only a day or two can get the greatest possible benefit for the time expended. Certain work will be given emphasis on certain days indicated as follows: Monday, by-products, good roads; Tuesday, sheep, prunes, breeding of dairy cattle, food; Wednesday, beef cattle, pruning of fruit trees, drainage, dairying, organization and markets, clothing; Thursday, child care, dairying, hogs, organization and markets, better seeds; Friday, horses, potatoes, clothing, and rural homes; Saturday, potatoes, live stock, journalism, etc.

Boys' and Girls' Stock Judging Contest. A dairy cow judging test for boys and girls will be held on Friday afternoon. Cash prizes will be awarded. Send to the Extension Service for circular of information.

A New Ford Story.

Here is a new Ford story we saw somewhere, but have forgotten just where. A man in California writes to the Ford company and tells them they should feel very much exalted for the reason that the Ford is the only car mentioned in the Bible and to prove it cites them to a passage in Isaiah which says: "He went up in to Heaven on high" and asks what other car but a Ford can do that.—McMinnville News-Reporter.

Miss Agnes Cline, of Portland, is visiting her sister Mrs. K. A. Miller. F. D. Axtell has gone to Marshfield on a business trip.

Miss Esther Elford, instructor in sewing in the school, announces that a new class will be formed next Monday, February 1, if there are enough who desire to take up the work. All applicants should enroll on or before that date.

Mayor Stapleton has leased his 22-acre farm on South Roberts avenue to Ben Tyrer. The terms are \$25 a month to be paid by Mr. Stapleton to his tenant, who is also to have three cows, pigs, chickens and all necessary fruits and vegetables and a house, besides a team, and is also to have one-half of all produce.

The Tuesday Evening Study club will meet at the library on the evening of February 2, with Mrs. A. Hevel as hostess. Roll call will be answered by short myths or legends of the northwest. The program will consist of a book review of Astoria by Mrs. C. M. Zimmerman; a short history of the Northwest company and its life in Oregon, by Miss Ada Honey; Founding of Astoria, Mrs. R. H. Todd; the Florida treaty and its bearing on Oregon, by Mrs. Jas. Sterling.

POWELL STREET

The United States of Europe.

This felicitous term, invented by William T. Stead, is prophetic. The pan-European war will advance it toward realization. It is not impossible that it may even bring it about.

There are no diversities in Europe that are not equalled in the United States. Not Austria itself has a population more varied than ours. Yet we are a united nation. Indeed, we are the stronger and finer nation because of this diversity, as a piano makes music by virtue of its differing elements—wood, steel, ivory, and felt.

Maine is proud of Maine; California of California; Virginia of Virginia; but all are no less proud of the United States. Italian pride need not hinder pride in the United States of Europe; it will contribute to it.

A study of the map of the United States will disclose queer projections of states, especially of the older states. In the early days it was of ten strenuously debated whether certain little strips and oblongs and triangles should belong to this state or that.

But now no one thinks of such trifles. Virginia is not hankering after West Virginia. Iowa is not reaching after a port on Lake Michigan. Vermont is not struggling with New Hampshire for access to the ocean. The entire country is open to the people of all the states.

How soon, once the idea of the United States of Europe becomes established, will the burning question of Alsace and Lorraine, of interior Serbia, of trisected Poland, of Russian ruled Finland, of much claimed Albania, of neutral Belgium, of Med-

iterranean islands and African spheres of influence and territorial aggressions in Asia be relegated to the junk of the dead centuries!

From the viewpoint of the royal houses the United States of Europe is an absurdity. From the viewpoint of the diplomats, and generals, and university professors, and writers of editorials in official organs it is an impossibility. From the viewpoint of the plain citizen who pays taxes and gets shot it is simple common sense, as sure of accomplishment as there are hearts in human bodies and brains in human heads. And it may be nearer than any one thinks. —Amos R. Wells in Life.
