

### Do You Want to Stay Poor?

Get out of your head the idea that Poverty is something you cannot help. Just so long as you stick to that theory, just so long poverty is going to stick to you. People in most cases are poor because they are too indolent—too careless—too thoughtless. Sit down and figure what you are spending—and what you can do without. Not the things that cost dollars—but the articles that cost pennies. How many pennies do you waste a week? Multiply that by 52—multiply that in turn by 50. You will then get some idea of why people stay poor all their lives. Fifty years of waste will turn even a millionaire into a pauper—while 50 years of economy will make a poor man rich.

—For the pennies that are wasted are responsible for most of the misery and practically all the poverty in the world.

The Oregon Development League has sent out to the secretary of the Pleasant Valley Push club a call for a meeting of the taxpayers of this community for the purpose of getting an expression upon eighteen resolutions and recommendations relating to legislature measures which it is proposed to bring to the attention of the legislators now in session at Salem. The most of these measures have to do with the expenditure of the taxpayers' money and for the most part are intended to encourage our legislators to be economical. One resolution declares that the per capita increase of taxes in this state has been 350 per cent in the past 10 years, while the increase in population has been but thirty-two per cent. However, we have neither time nor space to treat this matter exhaustively and presume that if we did that the taxpayers in our community would not be interested, as the call for the meeting was made for last Friday evening and only two responded.

#### GOOD ADVICE.

"Poultry raising, that's the stuff,  
Come and see our chicks;  
Learn just how to do it,  
All the fancy tricks.

How to make the business go,  
Scatter eggs around—  
Fun to watch the broilers grow,  
Then haul 'em off to town.

Bring your feed and groceries home,  
'Nough to last a month or more;  
Beating poultry's going some,  
Poultry men will soar.

Dairymen will smile and say  
Poultry's for the wife;  
Just get a start now by the way  
White Knoll has some life.

Call and see us right today,  
Let us know your needs;  
Though my advice while yet away,  
Don't think of fancy breeds.

Come and see our laying birds,  
And what fine chicks we get;  
Yes, we know we like your herds,  
But poultry's coming yet.

Many people read this paper,  
And the editor will say,  
Carrying news and advertisements  
To people living far away.

On that ground I write this poem  
And hope 'twill help to swell the news.  
Hope some day these facts to show 'em,  
Hope my readers I amuse.

Through the want ads. of this paper  
I have made a recent sale  
To a man in southern Oregon,  
So the want ads. never fail.

Now turn and read my want ad,  
And consider every word;  
Favor "White Knoll" with a visit—  
See the things of which you've heard.
