Too Much Society—The Victim's Sister, ever Entertaining, Succumbs to Nervous Breakdown

Regner's Opera House, Saturday Night, Feb. 13

THE DIRECT FROM BROADWAY FEATURES.

Herman Lieb in his own version of "Dope" will be the attraction at Regner's Opera House next Saturday evening. "Dope" will be shown in five reels, direct Broadway features, being an uplift drama in protest against the indiscriminate use of habit-forming drugs, with Laura Nelson Hall, Ernest Treux, William H. Tooker, Gaston Mervale, Christine Blessing and an all-Broadway cast in 125 scenes, employing hundreds of players.

These fine reels are the greatest educational features ever shown in Gresham—something every person should see.

COLUMBIA HEIGHTS

I cannot understand why a certain class of people have so much against the jitney busses in the city. I do think that some opposition to the street car traffic is just what the public needs. Have we not been compelled for years to step into overcrowded street cars, in fact been packed like sardines in a tin can, with hardly a chance to get hold of a strap for support? Now when we pay the fare for a trip in a jitney we will get a chance to sit down without being afraid that some one will drop down in our lap, or perhaps step on a sore corn. One very amusing item in the Journal today, to the effect that the police will watch that the busses don't carry too many passengers. Oh why have they not been in sympathy with the public that has been riding in overcrowded street cars that have been stuffed to suffocation. Give the busses a show, and at least give us a seat when we pay for it. MRS. P. ANDERSEN.

A plan which might profitably be followed in all parts of the Northwest has been adopted by the counties included in the Willamette Valley Exposition association, by which large sign boards will be erected along the line of the railroad telling passengers on the trains just where they are at any time, in what county and the distance to the state capital and also to the nearest important town. As these signs will be uniform in size and attractive in appearance, it is expected they will be of great interest to travelers.
