Fire losses in the United States last year totalled \$221,000,000. Premiums paid to 191 companies aggregated \$223,000,000. The sum of two millions in profits, averaging \$10,471 to each company should be enough, but expenses more than took it all. The companies claim that they sustained a loss of 4 per cent.

Cheese Test of Cows

A test to see which is the better cheese breed, Jerseys or Holsteins, was conducted by Tillamook county dairymen, assisted by R. C. Jones, county agriculturist. The test showed no difference, the average cow of each breed yielding 3.3 pounds. Mr. Jones states that the test adds nothing new to the knowledge of this subject.

THRESHING SEASON COMMENCES MONDAY

Henry Latourell announces that he will begin the threshing season next Monday in one of the grain fields of Powell Valley and will continue for the next six weeks, ending about the middle of September.

Mr. Latourell has a new Advance machine and was employed last season in the fields east of Gresham, where he gave such satisfaction that he is in demand again this year. He will not go east of the Sandy this year if there is enough work to keep him busy on this side.

His machine is in the Clananan barn near the Powell Valley schoolhouse, where it is being thoroughly overhauled preparatory to its start next week.

WHAT HE THOUGHT BUT DIDN'T WRITE

When Geo. W. Kenney arrived at Seaside he probably intended to write something like the following for his friends here—but he didn't: "Well, here I am at Seaside without a scratch. I tell you this slipping away from the police is not a habit, it is a gift. I left Gresham on Friday and arrived here the same day, but there was no one to meet me but the board of health. They pronounced me immune from the foot-and-mouth disease and with only a trace of hydrophobia, although I saw one man with something of the sort by the name of Wheeler—at least he talked a whole lot.

Of course, Seaside is an older town than the Princess of Powell Valley. It shows its age but is putting on some new frills. I was going over to Gearhart but have decided to wait as nearly all those I saw there last year have gone away, and some of them ought to stay away. This town has changed some since I was here last. I made myself known to the sheriff but he didn't seem to want me and I was glad of it.

"What is to hinder these Seasideers from being happy? There is going to be a big crop of tourists, tomcod and crabs. What more can they want? Pure air, pure water and pure thoughts—this last a surmise. Well, remember me to the boys."

Slides cut from pieces of glass that were taken from an ancient cathedral of Belgium will be used in the light effect in Jean Beaugere's act Wednesday night at Smith's Theater. The act of making the designs of this quality of glass is lost to the present generation.

Jean Beaugere, the wonderful Quick Change Artist and Female Impersonator, who makes twelve complete changes within a space of 12 seconds time between each change, will characterize and impersonate Cleopatra, Dr. Jekyll and Mr. Hyde, Spanish Soubret, Mother Frouchard, Society Belle, Rip van Winkle, Indian Girl, Arabian Dancer, Bowery Girl, David Garrick, French Dancer and German Peasant, with wonderful costumes and gorgeous lightning effects, finishing his act with a butterfly dance.

This act is a novelty in vaudeville circles.

The price of admission will not be raised.

You Grow as You Bank

Young men do not spring suddenly into business prominence and success. They rise gradually, over a period of years, from small transactions to big ones, from penny profits to great dividends. And invariably the history of a career of commercial achievement is best told in the man's banking record.

Banking Money Means Building Your Future—

Begin Early That Your Structure May Be High

There are more high-salaried positions in this country than there are men to fill them. The secret is training in finance, which begins with ordinary banking knowledge of the value and the uses of money. We will welcome you as a depositor.
