A well attended and interesting meeting of the Martha Verein was held yesterday at the home of Mrs. Herman Mullenhoff at Scenic station.

Mrs. L. T. Lusted, Miss Inez, the Misses Lucy and Esther Peterson, returned Saturday from Manzanita where they sojourned for two weeks in the Peterson cottage. They had a very pleasant outing in company with others of the Gresham colony there. Miss Lusted collected more than 6000 periwinkle shells, which she will use in making a shell portiere.

Mr. and Mrs. E. G. Kardell of Manzanita, former Gresham residents, have a beautiful shell portiere on exhibition in the Oregon building at the San Francisco exposition. It is attracting much attention.

A seven-pound girl was born to Mr. and Mrs. Melvin Sunday at Hood River on August 2. She has been named Dorothy Elizabeth. FORD AUTOMOBILES REDUCED IN PRICE

In an interview with Latourell & Son, the local Ford dealers, Mr. Latourell expressed himself as being very well pleased with the sales of Ford cars for the year ending July 31, 1915, and is confident that with the new price of \$440 f. o. b. Detroit for a five passenger touring car and \$390 for the roadster, with the nominal sum of \$53.25 for freight from Detroit, will place the Ford within reach of all. And as Mr. Latourell will extend terms to those desiring to pay that way, there should be no difficulty in everyone who wishes a Ford car to now have one in the family.

Mr. Latourell says that the convenience of a Ford car can hardly be appreciated until you have one. For the farmer who has to leave his work and go to the city for a part to some of his farm machinery it only means about 35 minutes each way on the road from anywhere near Gresham. Let the man who has been used to waiting for the cars or driving a team try this once and he will appreciate the advantage of the Ford on the farm, to say nothing of the car for hundreds of other uses. Take the family to church Sunday or for a spin in the country. Think it over.

On August 1, 1914, the Ford Motor company made the announcement that if they could make and sell at retail 300,000 Ford cars between August 1, 1914, and August 1, 1915, they would share profits with the retail purchasers to the extent of from \$40 to \$60 on each car. They have sold over 300,000 Fords in the time specified and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915.

Retail purchasers who have not mailed their profit-sharing coupons, properly endorsed, should do so without delay. For information on this point call on or address Latourell & Son, Gresham.

BOYS SMOKE CIGARETTES; BARN AND HAY BURN

Boys smoking in the barn on the farm of Mrs. E. M. Douglass, near Troutdale, set fire to the barn and resulted in the destruction of the barn and about twenty tons of hay. Considerable bedding and a tent in the barn were also burned. The barn itself was small and was valued at about \$100. The loss of the hay will be a serious handicap to Mrs. Douglass during the coming winter. There was no insurance.

You Grow as You Bank

Young men do not spring suddenly into business prominence and success. They rise gradually, over a period of years, from small transactions to big ones, from penny profits to great dividends. And invariably the history of a career of commercial achievement is best told in the man's banking record.

Banking Money Means Building Your Future—

Begin Early That Your Structure May Be High

There are more high-salaried positions in this country than there are men to fill them. The secret is training in finance, which begins with ordinary banking knowledge of the value and the uses of money. We will welcome you as a depositor.
