

**POWELL VALLEY'S SCHOOL FAIR**

The second fair of the Powell Valley school was held last Saturday and was a great success. The exercises consisted of songs and speeches with a scripture reading and prayer by Rev. S. F. Pitts. F. A. Lonegran, editor of the Oregon Post, and C. Chapman, editor of the Oregon Voter each gave very interesting talks.

The exhibits showed decided improvement over last year. They were fine examples of the industry and interest taken by the children of the district. Premiums numbered 111, every child exhibiting receiving at least one prize. The sum of \$100.25 was distributed. The fair was well patronized and was a decided success. Some of the best exhibits were brought to Gresham yesterday and may be seen in the juvenile department of the county fair.

Ladybirds are of great service to the gardener by reason of their destruction of plant lice, among which they lay their eggs, and as the larva come to life they feed on the lice.

Water issues from an artesian well on a Georgia farm with sufficient force to light its owner's house and barn with electricity and to give him power for small machinery.

Glass paving blocks used in an experimental way in a French city street lasted less than two years.

**Cotton for Explosives.**

In ancient times it was the custom for disputants in philosophy, and for manufacture of explosives. According to Secretary Hester, of the New Orleans Cotton Exchange, the consumption of American lintners rose from a monthly average of 26,000 bales during the first six months of the last cotton season to a monthly average of 40,000 during the second six months.

The total value of the world's fishery products has been estimated at \$493,474,801.

**FIREWORKS FACTORY MAY LOCATE HERE**

M. H. Squire, the fireworks man of the fair grounds, who will give the public his first program tonight, has serious intentions of locating in Gresham and establishing a factory with a capital of \$40,000.

Mr. Squire lives in Portland and is a manufacturer of fireworks of rare ability. He can easily make enough in Portland to supply the coast without any restrictions or regulations, but there is a prohibitive ordinance against storage of fireworks in the quantities he would want to keep on hand, and a large business, hence he is forced to do his work where he can find storage facilities.

He is very partial to Gresham as a location and may come here to stay if he can find a suitable location.

**Philippines On Smoke.**

It will be interesting to learn the result of the circular issued by the principal of Newham to the parents of the students under her charge, inviting expressions of opinion on a proposal that their daughters should be allowed to smoke in college. On the side of those favoring the proposal it may be urged that one of the fiercest enemies of tobacco thought that if men were base enough to smoke, women might follow their example as a measure of self-defense.

In his "Counterblaste" James I. wrote: "Herein is not only a great vanity, but a great contempt of God's good gifts, that the sweetness of man's breath should be willfully corrupted by this stinking smoke. Moreover, which is a great iniquity and against all humanity, the husband shall not be ashamed to reduce thereby his delicate, wholesome and clean-complexioned wife to that extremities that either she must also corrupt her sweet breath therewith, or else resolve to live in a perpetual stinking torment."

When interviewing first became a feature of journalism in Great Britain, English leader writers denounced it as the most dreadful form which American impertinence had yet assumed.

Twelve of the fair directors were complimented with a reproduction of their pictures in the Sunday Journal. Three were missing because the unlucky thirteenth man who sat before the camera was C. M. Lake. The hoodoo got him, smashed the machine and the picture taking business was all off. There was no use for Roberts and Townsend to sit for a negative, and so the paper went to press with only a dozen.

The flag of the United Kingdom, commonly known as the British flag, is the official flag of the whole empire, though, of course, the various provinces have their flaglets, just as some states of the American union have theirs, while Old Glory flies over all.

Gresham's jolly German baker went into a Portland movie one day not long since and the seat broke down with his great weight. They stopped the show while two English women helped a Frenchman get him into the aisle. This story could be lengthened out but space forbids.

**Notables Coming.**

Once on a time we visited a fair and saw a real, live president of the United States in the throng of sight-seers. He was Rutherford B. Hayes, accompanied by Mrs. Hayes, secretary of War Ramsey, General Sherman and General McCook.

They are all dead now and our present dignitaries, standing in their shoes, have not come to Gresham. But in their places we have greeted several others of great renown in Multnomah county. We may mention some of them in future issues.

This morning's Oregonian published a cartoon on the front page that money couldn't have bought. It was a great advertisement of Our Fair but was not strictly true to detail, nor quite in conformity to the map of Gresham and the fair grounds.

Arthur Lowden, who distinguished himself as a sign writer at the fair grounds last year, is here again doing business at the old stand. He runs a restaurant at Vancouver for money making purposes, but enjoys coming to the fair.

Another phone was installed yesterday this time in the cafeteria. There are now three phones on the fair grounds two of which are for local business only. That one in the secretary's office No. 911, is for long distance.

A feature, unique as well as instructive, is the postoffice display in the annex. It illustrates the utility of the parcel post system in a comprehensive way and is worth the trouble of a careful inspection.

Hessel's machinery store has just delivered a Hocking Valley ensilage cutter to James Fitzgerald; also an Ironclad silo to each of these: P. A. Johnson, J. A. Davidson and Jacob Luscher.

All the jitneys and auto busses including the Ford Quick Service cars and Leland Auto line, will carry passengers direct to the fair grounds gates.

Sales Day of livestock will be Friday and Saturday from 10 to 12. About 30 head of stock have so far been tested for auction and more are expected.

There will be no school tomorrow in Gresham, the Board of Directors having granted a holiday in deference to the Sunday schools.

**Daily Fair Outlook**

**MULTNOMAH COUNTY FAIR GROUNDS, TUESDAY, SEPTEMBER 14, 1915**

**Art.**

Nobody has yet been able to define art correctly, because every conception of art differs with the individual. Nobody really knows what truth is, yet art is said to be truth plus personality. Personality itself is our most incomprehensible enigma.

Art must possess a supreme and constantly increasing interest. The best and most unfulfilling test of art is when it endures. Time, therefore, is necessary to proclaim it. All masterpieces turned out overnight are not to be trusted.

The true artist is, therefore, most likely to be unknown. Time crowns him, and with the hand and deserts him with the other.

The automobile has created such a demand for upholstery leather that good leather is very expensive. The cheaper grades, made by splitting a hide several times, are unsatisfactory. Artificial leather of good wearing quality and good appearance is being manufactured in increasingly large quantities for in many cases consumers specify it instead of real leather.

**But It Cuts Into One's Self.**

The perfect Sunday is thus defined by Judge Alton B. Parker: "Rest, quiet, a little prayer, a bit of a sermon, a deal of heartfelt worship, a hearty lightening of family ties, some contemplation of man's duty to God and his neighbor and the citizen's duty to the state and a dead or two of kindness."

**A Delicate Possibility.**

"Are you in favor of government ownership?"

"Sometimes I am," replied the cautious citizen, "although I'd hate to be in a position where I couldn't express my opinion on the way a railroad was run, without seeming disrespectful toward my country."

**Special Premium.**

**Premium Given**

**A Hope Deferred.**

We cannot forget that in our early ambitions the perfect idea of pleasure to be realized, or indeed of fame to be enjoyed, was centered in the prospective ownership of a well appointed cafeteria.

In fact, we cannot to this day, when entering the association cafeteria on the fair grounds, resist the temptation of eating everything on the menu and allow the superintendent to charge it up.

Do you know we have never yet made the acquaintance of a caterer who was enthusiastic in his desire to allow us to do it? Not even Fred Craute.

**A Fair Warning.**

Stand Pat McArthur, who expects to keep a seat warm at Washington next winter, has promised to dredge Johnson creek as far as Gresham, build us a new postoffice and get a national law passed in aid of county fairs. He's a man after everybody's heart but is respectfully warned not to get after the hearts of the Gresham girls, even if he is an M. C.

Arthur Leland, who jitneys the traveling public between here and Portland, refuses to take a look into the poultry house, as it brings up sad memories of a night when he helped eat his own chickens under the railroad bridge. He can't look a hen in the face since then.

Just say "You're next" to Pete Michel, and it will recall the time when he went to the lady barber shop and found the proprietor nursing a baby. Up to this why he has always been a mystery, but he went without a shave for a whole week once. That was the same week.

R. H. Caswell, with who some of the Gresham people consorted eight years ago, met us on the Furrrow yesterday and said that the Outlook might refer to him as the proverbial bad penny.

President Lewis the man who runs the fair and all the other members of the Board of Directors, says he will give one hundred dollars to anyone who will forget!

Crane, Jenne and Town out last night after supper for to see if "over the ear" was one of the attractions year. They seemed disappointed.
