Model 83 1/2, 6, 6, Toledo
Roadster - \$725

This is the largest 4-cylinder Overland that will be produced this year

The Newest Overland

\$325 Less Than Last Year

The 1916 Overland is essentially the same as the 1915 Overland—the famous Model 80 that sold for \$1075.

But the price is \$325 less.

The stream-line body is the same as the \$1075 model of last season.

It has the same magnificent finish; that deep, rich tone of dark Brewster green

with fine hairline striping of clear ivory-white.

It has the same powerful, economical thirty-five horsepower, four-cylinder motor, but weighs less.

It has high-tension magneto ignition.

It has the same underslung rear springs. It has the convenient arrangement of electric control buttons on the steering column.

It has the same easy-working clutch which any woman can operate; the same "easy to handle" shifting levers; the same "easy to steer with" wheel; the same positive brakes.

It has 33" x 4" tires which is unusual on a car at this price.

In detail, finish, mechanical fineness, comforts and conveniences, this newest Overland gives you all there was in the

\$1075 Overland and even more power.

And it costs you but \$750—\$325 less than last season's large 35 horsepower Overland.

Deliveries are being made now all over the country.

Every Overland dealer already has a waiting list.

Place your order immediately and you can be sure of a speedy delivery.
