When You Take Cold.

With the average man a cold is a serious matter and should not be trifled with, as some of the most dangerous diseases start with a common cold. Take Chamberlain's Cough Remedy and get rid of your cold as quickly as possible. You are not experimenting when you use this remedy, as it has been in use for many years and has an established reputation. It contains no opium or other narcotic. Obtainable at Gresham Drug Store.—Adv.

The Philippine Islands have had this year one of the best crops in their history, but great hardship has been worked by lack of ships in which to carry hemp and sugar to foreign markets. Quantities of agricultural products are lying useless in warehouses or on the ground.

For a Muddy Complexion.

Take Chamberlain's Tablets and adopt a diet of vegetables and cereals. Take outdoor exercise daily and your complexion will be greatly improved within a few months. Try it. Obtainable at Gresham Drug Store.—Adv.

HOOD RIVER CANNERYMAN INVESTIGATING ESTACADA

J. R. Newton of Hood River, accompanied by G. A. Cobb of Portland, was an Estacada visitor last Saturday afternoon.

Mr. Newton is a practical cannery man, having been half owner, until this fall, of a big cannery at Hood River and is now looking for a suitable location to erect another plant.

Mr. Newton has promised to visit Estacada again within a few weeks, when he will thoroughly investigate local conditions relative to acreage of desired fruit, vegetables, etc. He especially favors the planting of strawberries of a certain variety and if he decides to locate here, will be in a position to guarantee, previous to the planting, a price to be paid at the cannery so the growers may know in advance what to expect.

Mr. Newton is not a cannery promoter and prefers to own his own plant rather than to go in on any co-operative deal.

This community will welcome Mr. Newton and if he means business, will find the growers here ready to help in every way.—Estacada Progress.

brings us to the question of city manager, as one of the problems of city administration. Such manager would have to be a man of large capacity. Dayton, Ohio, has such a manager, Henry M. Walte, and he has reduced expenses and brought efficiency. The manager for Dayton was appointed over the opposition of many newspapers and others, but he has secured large efficiency. Mr. Walte is the most unpromising man I ever saw, but he has secured results, and that is what the people want.

"These are some of the problems of constructive work, but then there are others. The Chamber of Commerce is and should be a moulder of public opinion for constructive work, and I trust you men will assist in that direction. Let us unite our efforts. The Portland Chamber of Commerce represents the interests of the entire city, and instead of scattering our efforts, let us unite for constructive work along these and other lines."

About sixty leading business men heard Mr. Hardy's address and met him at the close of his talk.

"I had a seventy mile drive yesterday," she said enthusiastically. "There ain't no such thing."—Detroit Free Press.
