Another accident to the dynamos at the O. W. P. station on Friday caused a short delay and resulted in a curtailment of the freight service and the use of trailers for a few days. The loss was about \$200. Deterioration of the plant is supposed to be the cause of the two recent breaks.

A fire alarm for a burning roof on Sam Bliss' blacksmith shop on Saturday morning last called out the department. The blaze was extinguished by the chemical with small loss. A new roof will probably be made to cover the entire building.

Advertising pays. That fact was demonstrated yesterday when a subscriber telephoned a want ad, offering 12 chickens for sale. Before six hours the word came that the chickens were sold and the ad hadn't even been set up. The effectiveness of advertising is sometimes accentuated by the telephone receiver which often gets off the hook on a party line. However, advertising pays.

F. B. Bayne and wife left today for Des Chutes, near which place they have a farm and where they will make their permanent home.

Bert Metzger has returned from his trip to California and is at his usual place in the store. He made the round trip to the expositions in his new Ford without a mishap of any kind in a month of almost constant travel.

Charles Reed and family moved to Lents Junction yesterday where Mr. Reed has a position as electrician in the power station.

There will be a football game Friday afternoon, 3:30 sharp, on the home field between the union high school team and one from the St. Johns high school.

L. A. McIntyre of Hastings, Michigan, is here the guest of his niece, Mrs. J. H. Metzger. He has been to the California expositions and is on his way home. He will remain here two or three weeks, revisiting places of interest as he was here ten years ago and is slightly acquainted in this vicinity. He is also the uncle of Mrs. Roy Gibbs, Mrs. Ruth Watson and Mrs. James McKinney.

Mrs. W. F. Honey returned last night from Seattle, where she has been visiting friends and attending the national W. C. T. U. convention.

Miss Iris Gullickson fell from a porch at Damascus on Saturday evening and sprained an ankle so badly that she is compelled to use crutches.

Mr. and Mrs. W. B. Parsons attended First Methodist church in Portland Sunday morning and spent the afternoon with friends in Lents.

The Baptist Ladies' Guild will meet with Mrs. J. N. Clanaahan Thursday afternoon for an all-day meeting. They are preparing a box for the Kodiak Orphanage in Alaska.

The Women's Home Missionary society of the Methodist Episcopal church will hold an all-day meeting in the lecture room of the church Wednesday. They will work on clothing and pack a box for the Portland Industrial home. They are soliciting fruit, vegetables and all kinds of provisions for the home.

The Halloween social which the Ladies' Aid announced for Friday evening, October 29 at the home of Mr. and Mrs. Wm. Thom, has been changed to the home of Mr. and Mrs. S. S. Thompson. The change was made on account of the condition of South Roberts avenue, which is undergoing extensive road work.

Dr. Mark Emery and wife, of Portland, visited Sunday at the home of the former's parents, Mr. and Mrs. B. W. Emery.

Ross Read is here looking after his farm on Gresham Heights.

The Women's Foreign Missionary society of the Free Methodist church will meet Wednesday afternoon at 2:30 o'clock with Mrs. Wm. R. Plummer at the parsonage. All are cordially invited to attend.

D. S. Dunbar, of Fairview, attended church in Gresham on Sunday and took dinner with H. L. St. Clair and family.

H. J. Stocker has returned home from St. Helena, where he has been engaged in surveying in connection with road work.

Four fine new sewing machines of the New Standard make have been received at the high school for use in the sewing classes.

Mrs. H. J. Stocker is home from Weed, California, where she went to visit her son, who is sick. He is comfortably situated in a camp in the pine woods, where he finds his condition improving.

Mrs. Clara Kane is spending the week at Cottrell with her daughter, Mrs. A. R. Goker and family.

Arrangements are being made for the G. A. C. Glee club to give one of their matchless entertainments in Regner's hall on December 30.

The only remaining dynamo at the transformer at the O. W. P. depot burned out early Friday morning. It is being repaired and will be in use again in a day or two. It had been in use for more than ten years. The other dynamo, which was burned out several weeks ago, is being repaired but will not be ready for some time as it has been taken apart for thorough cleaning.

On the average, married women live two years longer than single ones.

Eyes tested and glasses fitted. Dr. Geo. Inglis.—Adv.

UNION HIGH SCHOOL NOTES

Large Enrollment.—The second month of the union high school shows an enrollment of more than 150 students. Frank E. Eber of Orient, a junior, added his name to the register yesterday. Our new school building is already taxed to its capacity and steps should be taken at once looking to its enlargement for next school year.

New Member of Faculty.—Miss Lettie Gregson, of Salem, who has served successfully as principal of the school at Boring for the past three years, is the latest addition to the faculty. She has taken charge of the work as assistant in English and other subjects and is a valuable addition to the already strong teaching force.

Domestic Science.—There are 42 girls enrolled in the domestic science and domestic art courses. These departments are well equipped to give first-class training in these vocational subjects, and all the girls seem to be intensely interested in the work.

Manual Training.—The manual training department shows an enrollment of forty boys. This department is well equipped with work benches and all kinds of tools necessary for the most practical instruction in this subject. The first month shows marked improvement by the boys in this work.

Musical Organization.—Under the able instruction of Mrs. Ellen A. Pomeroy several musical organizations have already been formed and are doing excellent work. The high school orchestra promises to become a valuable adjunct to the school, and the girls' and boys' chorus clubs are practicing regularly on carefully selected music which we hope to have them render for the benefit of the public later. Assembly singing forms a part of the opening exercises every school morning, and one full period is given to this work every Thursday.

Physical Culture.—We hope to be able to start classes in physical culture for girls and boys in a short time. This work has been delayed on account of class work demanding the time of every teacher and on account of delay in receiving apparatus for our new gymnasium.

"Go to School Days."—The faculty is planning to set apart three days in the near future to be known as "Go to School Days," when all patrons and friends of the school will be invited to visit and inspect the new school building, and its splendid equipment and see the school in regular session. Announcement of the dates will be made later through these columns and by written invitation. CONTRIBUTOR.
