

Model 83  
\$750  
F.O.B. TOLEDO

## The Newest Overland--\$325 LESS Than Last Year

The 1916 Overland is essentially the same as the 1915 Overland—the famous Model 80 that sold for \$1075.

But the price is \$325 less.

The stream-line body is the same as the \$1075 model of last season.

It has the same magnificent finish; that deep, rich tone of dark Brewster green with fine hairline striping of clear ivory-white.

It has the same powerful, economical thirty-five horsepower, four-cylinder motor, but weighs less.

It has high-tension magneto ignition.

It has the same underslung rear springs. It has the convenient arrangement of electric control buttons on the steering column.

### Specifications of Model 83

35 Horsepower motor	Headlight dimmers
High-tension magneto ignition	Rain-vision, ventilating type, built-in wind shield
5-Bearing crankshaft	Instrument board on cowl dash
Thermo-siphon cooling	Left-hand drive, center control
Underslung rear springs	One-man top and top cover
33 in. x 4 in. tires; non-skid in rear	Magnetic speedometer
Demountable rims; with one extra	
Electric starting and lighting system	

It has the same easy working clutch which any woman can operate; the same "easy to handle" shifting levers; the same "easy to steer with" wheel; the same positive brakes.

It has 33 in. x 4 in. tires which is unusual on a car at this price.

In detail, finish, mechanical fitness, comforts and conveniences, this newest Overland gives you all there was in the \$1075 Overland and even more power.

And it costs you but \$750—\$325 less than last season's large 35 horsepower Overland.
