Now Look Out.

When a cold hangs on as often happens, or when you have hardly gotten over one cold before you contract another, look out for you are liable to contract some very serious disease. This succession of colds weakens the system and lowers the vitality so that you are much more liable to contract chronic catarrh, pneumonia or consumption. Cure your cold while you can. Chamberlain's Cough Remedy has a great reputation. It is relied upon by thousands of people and never disappoints them. Try it. It only costs a quarter. Sold by Gresham Drug Co.

The ukulele is not strictly a Hawaiian musical instrument, having been brought thither from Portugal, but the islanders have become wonderfully adept both at making and playing it. The department of commerce has recently received a protest from Honolulu because American manufacturers have been stamping their ukuleles "made in Hawaii."

A motion picture camera that uses glass plates instead of films and also can be used to project pictures has been invented in Europe for amateurs.

Chinese exports of firecrackers to the United States are yearly diminishing.

ALL THE DOINGS OF 'YOUR HOME TOWN'

Mrs. L. Heter of Dayton, Washington, is visiting relatives and friends at Gresham. Mrs. Heter is the mother of Mrs. D. R. Shoemaker.

S. Benson, who recently bought a fine piece of land on the Base Line road, is preparing to farm the tract with modern methods, having bought a Nivo manure spreader of our local merchants, Hessel & Son.

C. H. Snell, who will be out of business in Portland on January 1st, is preparing to make a dairy farm of the tract recently purchased east of Gresham. He has installed a Field-Type-W. engine and a Ross cutter purchased of Hessel & Son.

Mrs. E. E. Chipman was taken seriously ill yesterday and is under the care of a physician and nurse.

Larry Hollywood has closed the Star restaurant after trying all the week to sell it. He is packing up everything today and expects to leave with his family for Toolee, Utah, tomorrow. They will be missed, as Gresham is now without a restaurant.

Mrs. C. E. Rusher and Mrs. C. M. Oliphant attended the "Forward Movement" meeting in Portland last Wednesday and heard the bishops speak. They took dinner with Dr. Geo. F. Hopkins and family and went to the army in the evening, where they heard Captain Hobson.

Mrs. C. M. Zimmerman entertained a few friends at a luncheon yesterday, at her home on Hood avenue. An amusing hour was spent in "a tearing good time," in which Mrs. A. Dowsett won the prize for tearing the best object out of paper. Yellow was the color carried out in the decorations of the dining room, which was very attractive. Mrs. Karl A. Miller assisted Mrs. Zimmerman in serving. Mrs. L. L. Kidder poured.

A union Thanksgiving service will be participated in at the Methodist Episcopal church on Wednesday evening by members and friends of that church and those of the Baptist and Free Methodist churches. Rev. Mr. Tibbets of the Baptist church will preach. Special music will be prepared.

Geo. F. Honey went to Portland to hear Captain Hobson Wednesday night. It is reported that he did not get home until the early morning and that he probably forgot to take a copy of the Oregon prohibition law with him.

J. W. Wilson and G. A. Harper, organizers for the National Foresters were here this week in the interest of a new lodge. Mrs. M. A. Lynch will also be here next week.

The Tuesday Study club will meet at the library next Tuesday night. All women are invited to be present. Current events will be given in response to roll call.

A special meeting of the Ladies' Aid will be held in the League room of the church next Monday afternoon at 2:30 to plan for the bazaar and supper to be held in the near future. All ladies who are interested are invited to be present.

Mr. and Mrs. Lew Heitig, son and daughter from Kiester, Minnesota, old friends of Mr. and Mrs. C. M. Oliphant, are spending a few days visiting here, on their way to California, where they will spend the winter.

A daughter was born to Mr. and Mrs. A. L. Durant of Portland last Saturday. Mrs. Durant is a daughter of Mr. and Mrs. R. W. Calkins, and was formerly Mrs. Grace Cork.

An 8-pound boy was born to Mr. and Mrs. H. S. Ryerse on November 8. Mrs. R. Stoner is nursing Mrs. Ryerse. The family lives about a mile south of Linneman station.

A Sign of Prosperity.

To date this year, \$228,072,000 of bonds have been bought on the New York market. Bond purchases for the same period last year amounted to only \$424,867,000.

This practical doubling is one of the surest signs of prosperity. The activity of the stock market means almost nothing; the enormous majority of all stock transactions are mere speculation. But the man or woman who buys a bond is usually making a permanent investment.

Grand Masquerade Ball.

Multnomah grange will give a masquerade ball Thanksgiving night. Best of music. Ladies' and gentlemen's prizes will be given for the best sustained character. Turkey supper. All you can eat. Supper 75c a couple. Dance tickets \$1. Spectators, 25c.—Adv.

The consumption of salt in the United States amounts to almost 100 pounds per capita, a huge proportion of the whole going into various manufacturing processes. Discovery of tremendous new fields has served to keep the price consistently falling.

Read the Want Ads.

Is it not Izaak Walton who tells of a river in Palestine that never flowed on Sunday? A strictly veracious story to match this is told in a recent number of the Proceedings of the Connecticut Society of Civil Engineers by Robert E. Horton. It appears that in the red sandstone of the Passaic valley there is a spring, in a picnic ground, which formerly flowed perpetually. Its habits have changed, and it now flows only on Sundays and holidays. The mystery is easily explained. A number of artesian wells were bored into the sandstone in the vicinity of the spring to supply water to adjacent silk dyeing establishments. Except on Sundays and holidays, when the pumps are not running, the artesian slope is drawn below the level of the spring outlet and the spring ceases to flow.

The British board of education has published particulars of a scheme for a permanent official organization of scientific and industrial research. It is proposed to form a committee of a privy council to be responsible for the expenditure of any new moneys provided by parliament for scientific and industrial research, and a small advisory council responsible to the above mentioned committee, and composed mainly of eminent scientific men and men actually engaged in industries dependent upon scientific research. The first members of the advisory council will be: Lord Rayleigh, G. T. Bellby, W. Duddell, Prof. B. Hopkinson, Prof. J. A. McClelland, Prof. R. Meldal, R. Threlfall, with Sir William S. McCormick as administrative chairman.

Professor H. G. Walters, of Langhorne, Pa., has a peach tree which bears grafts as follows: Two of apple, three of rose, two of cedar and one each of hemlock, blackberry, lilac, plum and cherry.

A new French three-handed watch tells both twelve-hour and twenty-four-hour time, one hour hand being used for each kind on separate dials, while a single minute hand does for both.

Mrs. Catherine Roberts, of Richmond, Mr., is cutting her third set of teeth at the age of seventy-six. Her teeth appear to be well developed, and it is thought she will have a full set when the ordeal is past.

The first half-pint of milk at a milking contained only 1.07 per cent. of cream, while the last half-pint contained 10.30 per cent.

Bargains in the Want Ads.

"I acknowledge the corn," meaning to retract, to take back, has a number of explanations, the most plausible of which is that in 1828 one Stewart, of Ohio, made a speech in congress in which he declared that Ohio, Indiana and Kentucky sent their haystacks and corn fields to New York and Philadelphia for a market. Wickliffe, of Kentucky, questioned the statement.

Quill pens were made in the fifth century. There is no record of their earlier use. Theodoric, the Ostrogoth king, is said to have been illiterate and unable to write his own name. A golden plate was made with the letters of his name cut through it. This was placed over the document he was expected to sign, and he traced his name through the open spaces with a quill.

There are still three survivors of the original Mormon band to find its way into the valley of the Great Salt lake in 1847. One is Lorenso Sobieski Young, who belong to the third "ten" of the original company, to which Brigham Young also belonged. His first home was a wagon box lifted from its truck and supported by posts.
