MONOPOLE
BRAND

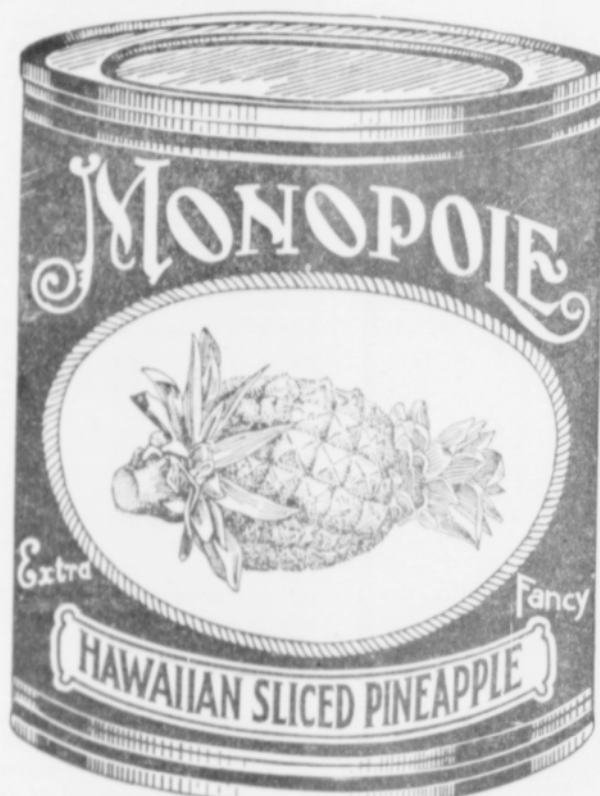

The word "MONOPOLE" on any food product is an absolute assurance—

That as much care and discrimination have been used in selecting the quality—

As you would use in buying and preparing for your own personal use—

This same care, followed up by many years of practical experience—

Has built up a reputation, second to none for quality.

PINEAPPLE

Sunshine of the Tropics in Every Can

There is wide distinction between the best of each fruit and the next grade, but in nothing is that distinction more marked than in the Pineapple. Until you have used the MONOPOLE you cannot know the flavor and substance of the best canned Pineapple.

This fruit must be grown under perfect conditions if it is to be of perfect quality. Does it surprise you to know that hot water pipes are laid in the ground along the roots of growing Pineapples to be canned as MONOPOLE goods? That is required to give an even, steady heat between 70 and 80 degrees. And these Pineapples are fed on leaf-mold—to give them a rich flavor, and for the same purpose, all water is withheld as the fruit ripens, so the juices will become thick and rich.

MONOPOLE
BRAND

Was not established over night.

It has required years of painstaking study—money and hard work—

On part of the manufacturer.

At last they have reached a point, where they are absolutely certain—

That no other brand of table foods are quite so good.

In most cases, Monopole is far superior to any other brand—canned—and the manufacturer is behind every pack.

**MONEY IS
FLEET
OF FOOT**

Especially during the holiday season—
Yet we are trying this year to price our goods in such way—

It will make your money go further than ever before—

We own our goods at right prices and we are going to divide up with our patrons.

You must come to our store to fully appreciate the real values we are offering this year.
