

If You Had a Fire?

If a man's house burns to the ground he need lose nothing provided he is carrying enough insurance at the time—that is, if his policy doesn't burn up with the rest of his belongings.

Almost every man has valuable papers such as Insurance Policies, Mortgages, Notes no amount of money could replace in case they were destroyed. For \$1.50 a year you can box a steel safety deposit inside the steel doors of our fire-proof vault. Why take chances?

An anti-typhoid campaign, carried out in Yakima county, Washington, by the United States public health service in co-operation with the local health authorities, has given striking results which are described in a recent public health bulletin. Prior to 1911 this county had every year a typhoid fever rate three times as high as the average rate for the whole United States.

A few years ago much was heard about the utility of bats as a means of destroying mosquitoes. According to experiments reported by S. G. Dixon, the most formidable animal enemy of the mosquito is the duck, and the introduction of this bird is recommended, for eliminating mosquitoes, and the diseases which these insects spread, from marshy regions where draining would be too costly.

Eyes tested and glasses fitted. Dr. Geo. Ingels.—Adv.

COLUMBIA HEIGHTS

It seems like we have been cut off from the rest of the world, just because the snow and ice make it impossible to travel and people have been compelled to stay at home, and to add to our trouble there has been a lot of sickness. Nearly everybody has had a spell of the grip up here this winter, but none have been seriously affected. We are happy that the weather changed. The atmosphere suits us better for as it was nearly came to losing our temper.

Now there are a few autos coming out from the city, and it makes us believe that perhaps the winter has passed on and first and last we hope that Jack Frost will keep away for he is such a disagreeable visitor. All the waterworks have been frozen solid, and everybody up here has had some experience getting water. Many pipes are burst and much repairing must be done before the rains will be able to work again. The schools will reopen tomorrow and now the girls and boys must get busy with their books as they have lost nearly two weeks' time.

The mail carriers also are busy now. The road is open and much delayed mail has to be delivered. At such a time a year as this the mail carrier is a good looked for person and how good it is to get something to read.

F. Salzman, who has been sick for some time, was removed to the hospital Friday and submitted to an operation the same evening and at this time is not out of danger, but we hope to hear he will soon be better.

P. Andersen met with an accident last Thursday that came close to costing him his life. He was unfortunatly as to strike the iron hub on the wagon wheel. He was unconscious when carried to the house, bleeding freely from a deep cut over his right eye. Dr. Bittner was called and an examination showed that no bones had been broken. Mr. Andersen is doing nicely and will soon be able to attend to his duties.

John Taylor went to Kelso last week to attend the funeral of a sister at that place.

Mrs. Henderson spent last week in the city with relatives.

Mr. and Mrs. J. Pounder were in the city Saturday on business.

Rev. Mr. Reeder of the Christian church was a visitor at Columbia View Farm on Sunday. Mr. Reeder will preach his last sermon at that church next Sunday, after being pastor at that place for two years. Mr. Reeder has made many friends here and is much respected by the people in this vicinity. Much he is called we wish him success.

Lawrence Evans had the misfortune to run a nail in his foot and is now suffering from blood poison.

Chamberlain's Cough Remedy Most Effective. "I have taken a great many bottles of Chamberlain's Cough Remedy and every time it has cured me. I have found it most effective for a hacking cough and for colds. After taking it a cough always disappears," writes J. R. Moore, Lost Valley, Ga. For sale by Gresham Drug Co.—Adv.

VICTORY

Mr. and Mrs. G. W. Andrews and family and Miss Jean Lent took dinner Sunday with Mr. and Mrs. J. C. Duke.

The snow has about all gone from Victory except what is lying in drifts and the drifts are shoveled so the roads are all open.

The mail wagon made its first trip Saturday. For ten days it could not get through and the people have learned how to appreciate it. It is a cure for sore eyes now.

Mr. and Mrs. Alex. Thompson and family spent Sunday afternoon with Mr. and Mrs. Wilhelm.

A number of farmers in this vicinity lost potatoes during the recent cold snap.

Pupils of Pleasant Valley school, who were entitled to a place on the roll of honor for the past month, are Pearl Dahlquist, Anthony Schmid, Elbert Butler, Raymond Brasswell, Florence Richey and Eigen Olson.

A play will be given by local talent at the grange hall next Saturday evening, January 29. The proceeds, after necessary expenses have been paid, will be turned over to a fund that is being raised for the purpose of erecting and equipping a play shed for the school children. This is a much needed improvement, and we hope to see the hall filled to capacity.

B. F. Nyström, a former pastor of the congregation, will give an address in Swedish. The Rev. A. Noreen, the pastor, will speak in English. Refreshments will be served after the program. Come and welcome. Services will be held in the church next Sunday morning at 10:45.

The Parent-Teachers' meeting of the Powell Valley school will be held at the schoolhouse Wednesday evening, January 26, at 8 o'clock. Principal E. S. McCormick of the Gresham grammar school will address the meeting. All are cordially invited.

A little son has come to the home of Mr. and Mrs. Aug. Samuelson. He is a healthy, happy little fellow and seems content with his lot, but the mother has been in a very critical condition. An ambulance came out from Portland Monday evening, and took her to a hospital for an operation for something like an abscess in her side.

An occasional coat of Lowe Bros. wagon paint will save your wagons and farm implements from rust and decay. It is inexpensive and will save you many dollars. Easily applied. We'll tell you how. Metzger Bros.—Adv.

Rats in the Trenches.

From Champagne, France, comes the complaint that the trenches are invaded by armies of rats. They are everywhere, especially in the night. They devour the provisions of the soldiers and prevent the men from obtaining sufficient sleep. There are objections to the use of poisons to kill the pests. A preferable means to get rid of them would be some method by which they could be driven out of the trenches. A Paris paper makes the following recommendation, apparently in all seriousness: "One means, not at all costly but efficacious, is that employed in the navy. It is known that rats swarm on shipboard. Experience has demonstrated that the presence of a single loaf, frightens and drives them away. If, then, you will put at proper distances, a number of loaves in wooden cages you will see the rats immediately disappear." No directions, however, are given as to easy method for capturing the required number of loaves.
