"The Linotype Way is the Way that Wins."

Official paper of the Town of Gresham, Oregon.  
Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

**SHOULD BE NO WASTE.**

With the high cost of living an ever present condition, the fact that there is too much waste is becoming more and more impressed upon the people; yet it is not taken seriously enough to give relief, when relief is easily obtainable to some degree, at least.

The public is not altogether to blame for being wasteful, for the manufacturers of every commodity have fostered the idea of throwing useful things away just to increase their sales. Take any commodity you use and reflect what the waste has cost. Boxes, cartons, cans, sacks, containers of all kinds are paid for by the consumers of the commodities that come in them—and then they go into the dump heap. Only the most economical can escape a portion of the expense imposed in this manner, and no one is entirely exempt.

But the increasing scarcity of many products is awakening the world to a realization of the great waste that has been going on. Take paper as a sample of the wasteful extravagance of the American people. For years we have given no thought of how soon our paper material would become exhausted. There has been scarcely any effort to conserve waste paper in any form, nor but little in waste rags. Thousands of tons of such stuff that could be manufactured over and over again are ruthlessly destroyed at once.

The great war has served to awaken the public to some extent, but it took the extra pressure of increased prices to wake them up. There is now a movement to educate the people to save their waste paper and old rags and they are becoming a marketable commodity. Here is an instance of where the manufacturers were mostly to blame for the situation, for they have steadfastly refused to pay for such material, until now they find that it is really worth something to them and they are beginning to open up and are willing to take all they can get at a moderate price.

When the people of America begin to save what they are now so eager to burn or otherwise destroy in order to get it out of sight there will be more wealth and the excessive cost of everything will be materially reduced.

**DOESN'T SUIT THEM.**

Using the blue jackets to overhaul the warships, though only resorted to because of a scarcity of other labor, would appear to be a measure of economy worth adopting as the regular order of things.—Exchange.

Making chore boys and drudges of the soldiers is just what has made the army so unpopular. The boys who join the army expect to be soldiers and not gardeners or stable hands.

It may interest some of our budding opera stars to know that after an absence of half a century "Sweet Belle Mahone" and "Come Where My Love Lies Dreaming," together with a few other old-time favorites, are on their way back.

The inquisitive subscriber at Rockwood asks: "Is it right for a wife to steal from a stingy husband?" Well, if she don't find a suspicious letter when going through his pockets it's always in order to keep the small change.

Tuesday, May 30th, will be Memorial Day. We have noticed before this that one holiday, when we want to get the paper off, can tear out more equanimity and sweetness from a print shop than the blizzard did.

Only four democratic aspirants for the legislature in Multnomah! We nominate Frank Jones, J. J. Halligan and Ben Mathews. Only five more needed to complete the ticket. Who will name them?

If the cold rains were doing any good probably nobody would offer serious objections. But the candidates don't seem natural all done up in overcoats.

The Oregon Primary Law is to be on trial Thursday, May 19. Many say it is a failure, that we are not getting as good candidates as under the old system. If that is true it is because the voter does not do his or her duty. If voters will read and think and enquire into the record and qualifications of the candidates it ought to be possible to select the best men for public office and do it far more intelligently under the primary nominating plan than under any other. Anyway we have the method and it should be used to the best advantage.

For the fifth time in two years John Engelsberg, proprietor of a cabaret in Panama City, has come to New York for more cabaret girls. Owing to the scarcity of girls on the isthmus and the attractiveness of the singers none of the four previous assortments have remained true to their art, and single, for more than six months.

After a careful study of the names that will go on the ballot, some people we know of will be inclined to hope that fishing will be good on May 20.

It is said that Germany will let us have 15,000 tons of dyes. Let us hope that it will arrive before we have to buy our fall and winter suit.

Latest developments have convinced us that Villa, himself, never attached much importance to the rumors of his death.

If DuPont were nominated for president he would probably contribute the powder for fireworks during the campaign.

One way to save money is not to mention to the deputy assessors that you have just bought a new automobile.

There is such a thing as a "city dutiful." Get in with your subscription to the Chautauqua.

The summer fashion of pretty-colored shoes ought to be some relief to the dyestuff situation.

Well, anyhow, it isn't often that we have such affectionate November weather in May.

An eastern style book says, "A fan for every frock." There generally is.

**ECONOMY IN OFFICE SHOULD BE REWARDED**

When John B. Coffey was previously a candidate for county clerk he promised to conduct the office efficiently with the least possible cost to the taxpayers and what he has done in the past he promises for the future if re-elected. Everyone, who has had any dealing with his office will testify to the efficient manner in which it was conducted and comparative records show that it has been administered more economically than during any previous administration. On this showing alone the taxpayers of Multnomah county should insist on his re-election but there are other additional reasons why this should be done as he has refused to receive any other emolument besides his flat salary, although the supreme court has held that a county clerk might retain the declaration and naturalization fees, amounting to a considerable sum, and during the past three years he has turned in to the county treasurer over \$13,500, representing interest on deposits.

It being known John B. Coffey is that kind of a man there should be no doubt about his nomination and re-election by majorities larger than he formerly received.
