Entered as second-class matter March 3, 1911, at the Postoffice at Gresham, Oregon, under the Act of March 3, 1879.

THAT BANQUET.

The Commercial club banquet was in a real get-together spirit and was of more benefit to the community than any other movement of the past two years. It should be repeated at proper intervals, as it draws the people into a closer union when there is something to eat and good speeches to enliven the occasion.

Our greatest regret at this time is the fact that we are unable to give adequate space for a full report of the meeting in this issue on account of such a pressure of advertising. However, it is on the cards that we will have a good story concerning the progress of the automobile factory on a near date.

O. Laurgaard, candidate for the nomination as representative, writes the Outlook a pledge that he will support the county fair in case of his election. His position meets the demands of the voters who are interested in seeing justice done in the matter of appropriations. As such he is entitled to the votes of the people of this section of the county.

A company is being formed in this state to use the hitherto wasted cherry stones. Nearly four million tons of cherry stones have been thrown away each year in this country which will yield fully \$200,000 in oils, jellies and oil meal. If all that waste can be saved it would mean anything you can imagine to the amount named.

It is not very difficult to do some clear thinking if one is able to keep his mouth shut for an hour at a time. And we noticed that several persons never opened their mouths during the speeches made at the banquet on Wednesday evening.

Practically every republican voter in eastern Multnomah is backing E. S. McCormick for county school superintendent. This section holds the balance of power if applied, and with a unanimous vote here he is sure to be nominated.

Harper's Weekly has ceased to exist. We have felt all the time that it couldn't live very long after the Outlook got started on its way as the popular family journal of civilization it has grown to be.

The inquisitive subscriber at Rockwood wants to know if we will be able to associate with the democrats in heaven. We are sure of it if the democrats happen to get there.

K. K. Kubli is another firm friend of the county fair who is entitled to the support of the voters of this section for the legislature. Read his card elsewhere for his pledge.

Thomas Edison says there will be very little poverty in a hundred years. There is some comfort to us in the reflection that there will be very little of us when that time comes.

Concerning that idea of turning the clocks back an hour: If we find that turning the clock backward will make money, we shall have one built that will run backward.

As usual the state grange seems to have slighted Multnomah county in the election of officers. We move to change the name to Clackamas County State Grange.

Food for the average family costs slightly more than it did a year ago, and the discouraging part of it is that nearly all of us belong to the average family.

Those 122 names on the primary ballot represent that many republican hats in the ring, counting Constable Squire's.

A plurality for Hughes would make it appear that the voters of Oregon doubt the eminent jurist's words.

And the price of sugar threatens to soar again. Ever try salt and butter-milk on your strawberries.

Go to Zimmerman's and see those used cars on sale cheap.

TILLAMOOK COUNTY BOOSTER CLUB FOR

EDGAR H. WHITNEY,

Republican Candidate for the Office of County Superintendent of Multnomah Co.

The undersigned, former residents of Tillamook county, Oregon, being vitally interested in all educational matters of Oregon in general, and of Multnomah county in particular, have organized ourselves into a Booster Club for the purpose of furthering the interests of Mr. Whitney in his candidacy for the office of County Superintendent, and for further purpose of securing for Multnomah a clean, capable, industrious man to direct the educational forces of the county for the next four years.

Mr. Whitney founded one of the first four-year high schools in the state of Oregon and has left the impress of his personality on scores of Oregon young men and women, who as a result of his personal touch and helpfulness are today occupying positions of prominence in this and other states.

Mr. Whitney is a man of broad culture and profound learning and is now as he has always been, in the front rank of the men of his profession. He is courageous in his stand on educational matters and possesses an unimpeachable character. He is positive in his actions yet deals generously with those associated with him in his work. In a word, we believe that he possesses in a very large degree all those qualities so essential in the head of the educational forces of a great county like Multnomah.

Believing that it is for the best interests of all for Multnomah county to secure the services of so reputable and capable man as Mr. Whitney, we, without reservation, indorse him for the office of County School Superintendent of Schools:

- Ben Riesland, Attorney, Platt Bldg.
- E. M. Phelps, Rothchild Bldg.
- Ralph Aekley, Rothchild Bldg.
