The largest railway scale in the world has recently been completed at West Albany, N. Y. It is capable of accommodating a load of 1,650,000 pounds. It consists of six weighing instruments each having a capacity of 275,000 pounds. It is designed for weighing locomotives and other heavy rolling stock. Some of the engines used upon the Pacific coast weigh 215 tons each but this giant would be able to weigh four of them at once, if necessary. The accuracy of this giant instrument is remarkable. It does not vary ten pounds at its full capacity.

Ireland has 84,869 land holders having plots not exceeding an acre, 61,730 who hold more than one acre and not more than five acres; 152,289 under fifteen, and 136,058 not exceeding thirty.

Spain in 1915 imported 1,200,000 tons of coal.

Cure for Cholera Morbus.
"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Sidney Simmons, Fair Haven, N. Y. "Since then other members of my family have used this valuable medicine for colic and bowel troubles with good satisfaction and I gladly endorse it as a remedy of exceptional merit." For sale by Gresham Drug Co.—Adv.

Undertrack Cut Finished.

The paving of the underground crossing on the Sandy road near the county farm was finished last week and the road is now open to traffic its full length, rendering unnecessary the detour from the Base Line road to Troutdale to reach the Columbia river highway. Through the completion of this job there is now a paved roadway from the courthouse to the Hood River county line, a distance of 45 miles.

The change of route of the Japanese lines touching at European ports from the Suez and the Mediterranean to the route around Africa is proving a boon to exporters. The liners are now touching at African ports and there is already quite a trade in African wool. An order of 200,000 pounds of merino tops was recently placed in South Africa at a cost of about 20 per cent. more than usually paid by the Japanese.

Australia has many 1,000-acre farms.

Liver Trouble.

"I am bothered with liver trouble about twice a year," writes Joe Dingman, Webster City, Iowa. "I have pains in my side and back and an awful soreness in my stomach. I heard of Chamberlain's Tablets and tried them. By the time I had used half a bottle of them I was feeling fine and had no signs of pain." For sale at Gresham Drug Store.—Adv.

Motion pictures have been performing an unusual service in the woods of northern Wisconsin by entertaining the lumber-jacks in the employ of a certain concern and indirectly curbing their desire to go to town on every pay day and spend all their earnings. The concern in question furnished its men with a new movie program nightly, for a small fee, which was gladly paid. These entertainments were so successful in keeping the men contented that other companies are thinking of offering similar attractions.

Ozark, Mo., farmers get rid of crows in the following manner: A "crow contest" is organized. Each contestant subscribes one bushel of corn. Next October the contestant producing the largest number of crow bills will get all the corn. Up to date eighty have entered the contest and one man has killed forty crows.

More Men Than Women Have Appendicitis.

Surgeons state men are slightly more subject to appendicitis than women. Gresham people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler-I-ka, often relieve or prevent appendicitis. This mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT, easy action of Adler-I-ka is surprising.
