

THE TALLY.
It isn't the job we intend to do
Or the labor we've just begun
That put us right on the ledger
sheet;
It's the work we have really done.
Our credit is built upon things we
do,
Our debit on things we shirk,
The man who totals the biggest plus
is the man who completes his
work.
Good intentions do not pay bills
It's easy enough to plan.
To wish is the play of an office boy;
To do is the job of a man.

WOMANHOOD.
So sweet, so true, so gentle
She is, that one and all
Are happy to be near her
And answer to her call.
E'en thoughtful and so tender,
So lovely every day—
E'en sorrow grieves to grieve her,
But cannot stay away.

**TEMPERANCES FORCES
EXERCISING ACTIVITY**

Much activity is being exercised
by the temperance forces of the state
to defeat the brewers' amendment to
the constitution, which, according to
the opinions of prominent attorneys,
would completely destroy the effect
of the present prohibition law and
give the brewers freedom to sell in
any part of the state.

George Neuner, Roseberg, District
Attorney for Douglas county, and
president of the State association of
Oregon District Attorneys, says:

“My personal opinion is that no
amendment could be more cunningly
planned or worded to destroy abso-
lutely the effect of the present prohi-
bition law than the proposed brewery
amendment. There is no question
but that if this amendment is adopted
it will annul the entire prohibi-
tory law, and will make it absolutely
unenforceable.”

Ex-Governor West, Portland, says:
“The beer amendment seems to
carry all the jokers you have pointed
out. It is a skillful attempt to fool
the people and must by all means be
defeated.”

Arthur Clark, Corvallis, District
Attorney of Benton county, says of
conditions in case the brewery
amendment were adopted:

“There would be no distinction in
favor of an, portion of the state for-
merly dry under the local option law,
and liquor could be sold by agents
of breweries so long as it was sold
in the original package. It appears
to me that there is no ban upon the
sale of malt liquor containing four
per cent. or less of alcohol anywhere
in the state except as to quantity. It
would necessarily make the procur-
ing of such liquor very much easier
than at present. It follows as a nat-
ural sequence that it would stimulate
the sales.”

The Oregon Anti-Saloon league
has just issued 125,000 pamphlets
from the Outlook press, in which it
enumerates some of the conditions
that would be brought about by the
passage of the amendment. It would
Open saloons on every city corner
and county crossroads disguised as
“brewery agencies.”
“Legalize sales to minors, insane,
criminals, drunks and women.”
Open drug store saloons by per-
mitting sale of every kind of liquor
“for medicinal purposes.”
Make unscrupulous doctors rich
writing prescriptions.
Increase crime and criminal ex-
pense, misery, poverty.
Multiply the social evil and venge-
ful diseases.
Make all present regulations un-
enforceable.
Increase importations; send more
money out of the state.
Put the brewery-saloon combine
back in control of politics.

Voters must remember that we are
to vote on two constitutional amend-
ments affecting Oregon wet or dry
and that voting for or against one
has no effect on the other. Both can
win and be in effect at the same time.
Should this be the case, Oregon brew-
ers would have an absolute monopoly
in supplying Oregon with beer. The
only way to defeat the brewers' bill
is to vote against it.
