**COLUMBIA HEIGHTS**

Well; now the excitement is over and the President elected, we look forward to four years of peace and plenty and Godspeed to Woodrow Wilson. The Outlook must now acknowledge that I was right when I said Wilson would win. It can be said our President has been shamefully abused and it is considered perfectly ridiculous the way people express themselves in regard to his administration. It sure is a free country here when I comes to speech making. If any body across the Atlantic dared make such expression concerning their ruler they would soon get what was coming to them; even if the administration of the President doesn't suit everybody, the people of the nation should honor and respect their President.
