A. C. Sanders of Butte, Montana, has been visiting with the family of K. A. Miller for several days. He will go to Glendale tomorrow to investigate John Brown's gold mine with a view to recommending it for purchase to a mining syndicate in case it meets with his expectations. He is a mining expert and is familiar with the Glendale mining properties.

A new directory for the Corbett telephone system has just been printed at the Outlook office. The Corbett exchange has free connection with the Gresham system, giving it service over all the lines of eastern Multnomah and Clackamas counties. A number of these directories have been left at the Outlook office for free distribution to members of the Gresham system. Call for them.

The members of the Women's Christian Temperance Union will meet at the home of Mrs. H. L. Wostell tomorrow afternoon, for quilting. On Thursday, the regular business meeting of the Union will be held at the library, beginning promptly at 2:30 o'clock. If members are prompt in attendance, there will be time to adjourn to the home of Mrs. Wostell and finish the quilt work on hand.

Mrs. Mattie Frakes is moving her household belongings to Portland, where she will make her home. Frank and his wife were taken in today by G. W. Kenney. It will probably be a week or more before Mrs. Frakes completes her arrangements here and joins the others in Portland.

### Does It Pay to Use Cheap Paint?

Look around you and see the buildings that have been painted with cheap paint.

It looked well when it was first put on, but it doesn't wear well does it?

Those who study the paint subject naturally select Sherwin & Williams Paint, because it has proved itself, has been used for years, and never found wanting.

See us for everything in the Paint line.
