

# Ship Your Livestock

LIVE STOCK, when properly marketed, is one of the best investments of today, and the shipping alive in car loads is the proper way of marketing, thus eliminating the disagreeable feature of butchering at home. I am buying and shipping both hogs and cattle, for which I will pay at Boring Station highest market prices.

If you have anything to sell, communicate with me, or with Mr. E. L. Thompson, agent Portland Railway, Light & Power Co., Boring, either by phone or by letter, stating what you have to offer and your name and address, and I will arrange to call and make you an offer. Remember, listing with me or with Mr. Thompson does not obligate you to sell unless my price is right. One trial will convince you that it's the profitable way to ship.

## Walter Givens ESTACADA, ORE.

The Laps of northern Slam have an interesting reed instrument, which is made up with fourteen bamboo or hollow-reed pipes symmetrically arranged with a small air chamber and mouthpiece of turned wood or ivory. A tongued metal plate is inserted in a slit in each pipe, and the joints between the pipes and the air chamber are stopped with wax. The tone of this instrument is described as peculiarly sweet and chords may be produced upon it.

Recently invented thumb tacks are provided with handles to help in withdrawing them, which fold down into the heads of the tacks so as to be out of the way when not needed.

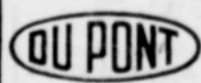

### Insomnia.

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. Obtainable everywhere.—Adv

## CLEAR LAND

WITH

Red Cross Explosives

The upper view shows how groups of big stumps are blasted out clean at one time, with all dirt off the roots and stumps shattered into kindling wood. At the same time the subsoil is thoroughly broken up, creating a fine home for the new crop. Lower view shows a celery crop worth \$800 per acre ten months after stumps were blasted out.

To learn how progressive farmers are using dynamite for removing stumps and boulders, planting and cultivating fruit trees, regenerating barren soil, ditching, draining, excavating, and road-making.

GRESHAM, OREGON

### PLEASANT VALLEY

F. M. Trask was looking after business matters in Lents Tuesday.

Keith Kesterson, of Kellogg, Oregon, visited with relatives and friends in this neighborhood during the fore part of the week.

Miss Edna Berke, of Barton, came down Friday evening and visited with home folks until Sunday evening, when she returned to Barton.

Willie Berke was a Lents visitor on business last Tuesday.

Dr. O. A. Hess was a caller in this vicinity one day during the fore part of the week.

A. G. Sager and daughter, Miss Valma, were guests at the home of Mr. and Mrs. G. N. Sager last Sunday.

Mr. Burns, of Gilbert, transacted business hereabout on Monday.

Mrs. A. B. Olson, who underwent a serious operation at the Sellwood hospital several weeks ago, has so far recovered as to be able to leave the hospital. Mrs. Olson is at the home of her daughter, Mrs. Geo. Taylor, of Sellwood at present and expects to be able to return home some time during the coming week.

E. S. Jenge has commenced the erection of a modern dairy barn on his place. The structure will be 76 feet wide by 108 feet in length and 35 feet in height.

F. H. Gilchrist expects to commence work on his new residence in the near future.

Adolph Kasper is awaiting favorable weather conditions before commencing operations for the building of a new barn on his premises.

Investigate the proposed \$6,000,000 bond measure most thoroughly before giving the stamp of your approval.

As a warning to "price boosters" Herbert Kaufman says "You'd better lower certain prices to a legitimate margin of profit before the community steps in and decides what your gains shall be."

### COTTRELL

Louis Griffin and Jerome Brooks of this place enlisted for army services at Vancouver the first of the week.

Mrs. Ed. Andre was called to The Dalles last week on account of the illness of her daughter-in-law.

The Willing Workers society will meet at the Cottrell community church Friday afternoon, May 4.

### When a Great Prima Donna Sang Basso.

In the March Woman's Home Companion is an autobiographical sketch of Louise Home, who tells the following amusing incident of her early career, when she sang basso profundo:

"After my father's death, we returned East and made our home in a small town near Philadelphia. It was here, at the age of fourteen, that I made my first public appearance. The people of our church planned to give the cantata of 'Ruth and Naomi,' and came to my mother to ask if I would sing Ruth. She was much amused, but said, 'You'd better ask Louise. If she would like it, I have no objections.' When they asked me, I just laughed. I thought it the funniest thing I had ever heard of. I had never sung a note alone and never dreamed of doing so. But the idea, although new, struck me as a very jolly one. I said, if they wanted me to sing for them, I'd be delighted to do so, but I didn't sing and I didn't know why they thought I could. We had a wonderful time rehearsing—I just loved it. My sister sang the part of Naomi. But when we arrived at the church the night of the performance we found everyone in the greatest excitement. What could be done! The man who was to sing Boaz had missed his train and could not possibly get there to sing. 'Oh, I said, calmly, 'That's all right. I'll sing his part, too.' So I sang the basso-profundo part as well as my own."

"The only building in Lhasa (Tibet) that is at all imposing is the Potala," writes Edmund Candler. "It is not a palace on a hill, but a hill—that is also a palace. Its massive walls, its terraces and bastions stretch upward from the plain to the crest as if the great bluff rock were merely a foundation stone planted there."

The first opera ever performed in public and incidentally the earliest whose complete manuscripts have been preserved, is "Eurydice," founded on the story of Orpheus and Eurydice and written at the end of the sixteenth century. The text was Octavio Rinuccini's and the music the combined work of Jacopo Peri and Giulio Caccini.

The completion of the Burrinjuck dam in New South Wales will finish the irrigation project in that section. Two rivers, formerly subject to floods and running dry, are held up by the dam so that a constant supply of water is assured. Seven thousand farms will be benefited by this improvement.

Those Milk Record blanks. Printed on durable cardboard, suitable for 16 to 18 cows. Just the thing for your dairy. Will save many times their cost. 10c each, or \$1.00 a dozen. The Outlook, phone 701.

### PLEASANT HOME

Martin Lennartz has gone to Brightwood on the Salmon river to put up a mill for Mickelsen & Nelson.

Mr. and Mrs. C. B. Steinman, Mrs. Kennedy and Anna Lennartz went to Portland yesterday to see the parade and hear the speeches at the armory. They reported a fine time, in spite of the rain.

Citizens of this community are planning a patriotic meeting to be held in the near future.

Rev. F. S. Ford has returned from Tillamook, where he spent the past week with his daughter.

W. C. Calvin has put up a new Petaluma brooder house for D. T. Williams, which is now housing 1100 chicks.

W. A. Miller is building a new barn on his place near Pleasant Home.

David Lauderback has come from Portland to spend several weeks with his brother, John Lauderback.

Martin Lennartz has 5000 Cuthbert raspberry plants ready to put in as soon as the ground is in condition for working.

The Methodist Ladies' Aid will meet with Mrs. Martin Lennartz next Wednesday afternoon. All are invited to attend.

It is reported that several boys from this community went to enlist in the army and were advised to remain at home and cultivate the farms.

### Prevention of Colds.

There are a great many folks today with colds and others with grip, tonsillitis and kindred diseases who, had they exercised a modicum of preventive caution, need not have suffered with the discomfort and absence from business. There are few diseases so insidious in their attack as colds and their consequences. We tramp round on a wet day, sans over-shoes, and the soles of our shoes become thoroughly soaked. If the moisture does not reach our feet the feet at least feel the effect of the clammy sole. We go home and sit around in our damp shoes. The next morning we begin to snifle and we are ready for the cure, instead of the preventive. Yet a hot footbath the night before might have sent the blood coursing through our feet and warded off the attack. We sit in a warm house in the evening and on Sunday. If we have need for something in the garage or on the back porch we rush out without sufficient clothing or a hat. The cold air gives the system a shock and if our resistance is low, we very likely have given a cold a good start. We bustle around for an hour or so doing various errands and get the blood flowing rapidly to the remotest parts of the body. Then we stand on a street corner for half an hour waiting for a street car and oftentimes a chill is the result. It may be stopped by a good hot bath when we get home, but we get into the house, eat the evening meal, feel fairly well—and the cold starts to work.

By taking a moment's thought and care we avoid many cases of cold and its resultant ills. The extra time it takes to put on a hat, a coat or change damp hosiery is insignificant compared to the days of discomfort we must suffer to pay for the moment's indiscretion. Often, too, we imagine that we can cure our ills by homely remedies. Frequently a call on the doctor when a cold is in its incipency will mean a quicker cure than is possible by resorting to home treatment.

Doctors tell us that many serious diseases may result from a neglected cold or a throat affection. Among these are rheumatism, tuberculosis, heart trouble and Bright's disease. The medical profession more and more is becoming interested in preventive measures. We can help the movement along by using common sense, by remembering that we can not violate a law of health unless we pay the penalty. Get plenty of fresh air. Wear more clothing outside the house and office than we do inside. Do not stand for long in a draft. Sleep with the bedroom windows up, but in doing so be sure that there is no draft to smite the back of the neck while you sleep.

That he can produce one horse power for each pound his engine weighs is the assertion of the French inventor of a motor depending upon the explosive force of gunpowder for power.

Richmond park, one of the British royal preserves, has been a feeding range for deer since the time of Charles I.

There are about 1,000 kinds of mosquitoes.

Safe Medicine for Children. "Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effective in relieving coughs, colds and croup. Obtainable everywhere.—Adv.

### LUSTED

Our teacher, Miss Eva Schneider, is unable to teach this week on account of illness. We hope for a speedy recovery. School is in session, however, and Miss Clara Schneider is substituting for her sister.

Mrs. Cummings and daughter-in-law, Mrs. Frank Cummings, of Troutdale, visited the former's daughter, Mrs. George Moulton, last Monday.

Miss Ada Harrington is visiting her sister, Mrs. A. W. Hamilton.

Miss Kittie Williams and Miss Zena Neibauer visited with their parents, Mr. and Mrs. R. Neibauer last Sunday.

Mr. and Mrs. G. Lusted motored into Portland last Saturday. Mr. and Mrs. J. Goff returned with them and visited over Sunday.

Ida Sester and brother John, have been unable to attend school for several days, being ill with a bad case of tonsillitis. Many people, old and young, have been having it this spring.

### New South African Industry.

A new industry for South Africa is now in prospect. An exhibition and sale of locally made toys was recently held in Johannesburg and aroused so much interest that it was left there was an excellent opportunity for manufacturing this class of goods; it has, therefore, been definitely decided to proceed with the work under the aegis of the national service fund. It is proposed to hold monthly toy competitions, and a shop is to be opened in a central position in Johannesburg. Toys are already coming forward from all parts of the Union.

One-fourth of Australia is yet unexplored.

### SANDY BLUFF

Mr. and Mrs. Caldo were Portland visitors Monday.

The Cottrell Embroidery club met with Mrs. V. Hengstler on Wednesday. Mrs. Sutton assisted in entertaining.

"Grandma" Hauglum is quite sick with pneumonia.

Alfred Hauglum is home, after an absence of two months.

Fred Radford was in Portland on business Monday.

Mrs. Caldo and Mrs. Ault attended the Parent-Teachers' meeting in Gresham. They report a very fine talk on "Home Economy" by Mrs. Brooks of the O. A. C.

### Alike, Yet Very Different.

On Seventh avenue the other evening I saw a small red headed fool of a boy throwing cans. "An excitement craving empty headed kid," I said to myself, driving by. On the next block I saw a girl with red curls, dressed in furs, rather dashing, who gave me a little provocative smile as I passed. Did I say to myself that she was an excitement craving, empty headed kid? She was, but I didn't. On the contrary, for the moment at least, I felt quite drawn toward her. Yet she and that boy might easily have been brother and sister and twin rowdies at heart. Why did one of the two so attract me and the other repel?

The strange lure of sex. It was ready to blind me to the mental defects of that girl. It was ready to fix my thoughts on her cheeks or her hair if I'd sat with her. Now, isn't that odd? I should never have given a snap for her kid brother's hair or cheeks naturally. I'd have looked him well over and seen at a glance he hadn't much character and maybe less brains, but could I have seen what she lacked once I'd felt her attraction?—Clarence Day, Jr., in Metropolitan Magazine.

Massachusetts proposes to remove offensive billboards from scenic highways.

## SILOS That Will Mean Perfect Ensilage to You

A hinged door that is always right—no better lumber or steel at any price.

Get our prices before you order. You'll save money and get a better Silo. Any Silos ordered for spring or fall delivery for the next 30 days at the same price as last year. NO RAISE.

Put aside the fear of late spring rains ruining your hay crop. It is never too wet to put in your vetch or clover in a Silo, also you'll get better feed at less cost to you.
