TROUTDALE

Smelt are running in the Sandy. This is an event that does not happen every year, and when there is a run, people for miles around take advantage of it, and catch all they need for present use, and many salt them down, or preserve them in various ways. It is peculiarly opportune this year, when family providers are at their wits' end to know how to keep the high cost of living from getting the best of them.

Saturday afternoon a deputy game warden came along and demanded a special drag-net license from any one fishing, which put a damper on the sport for a while, but soon Recorder Hudson got busy, backed by the indignation of the people, and wired to Governor Withycombe asking that the law be suspended which was done, and the fishing went merrily on. Sunday great crowds were out to see the fishing. If anybody in Multnomah county was not there, they surely were not missed. In the afternoon most of the time there was a jam of autos from the electric station to a way above the Sandy bridge, with autos parked on either side, also. Three boats of fishermen, the Larsons, the Latourelles and the Crawford did a thriving business. They caught tons of fish, selling them as fast as they could catch them, customers waiting in line for a chance to buy. The fish are very fine, being large and firm. It is uncertain how long the run will continue, but the first of the run is considered the best, so the residents around Troutdale are forsaking their ordinary occupations and hieing them to the Sandy, to dip up their supply of fish.

Guests who came to the Sun Dial ranch Sunday to take in the fishing were Mr. and Mrs. Harry Berry and family, Mrs. T. Heibach, Adolph Larson, P. K. Dunn, and W. W. Lumsden, all of Portland.

Miss Emma Johnson, of Gresham, and Miss Peggy Thomas, of Portland, were week-end visitors at the C. I. Raker home.

Mrs. Frank Boscoe and small son returned last week from visiting her mother near Tacoma, making her visit shorter than she had intended.

The entertainment, Ben Hur, illustrated, postponed recently, is to be given next Saturday evening in the church.

The Sunday school is glad to welcome the new members from the mountain across the Sandy. The superintendent, Geo. Lumsden, and one of the teachers, Mrs. N. S. Parsons, have been on the sick list for a week but we hope to see them out again soon.

Safe Medicine for Children. "Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effectual in relieving coughs, colds and croup. Obtainable everywhere.—Adv.

ROCKWOOD

The Parent-Teachers' association met Thursday afternoon at the schoolhouse. A good program was given by the children. The question of closing the school a month earlier to give the children an opportunity to work in the garden as suggested at the Multnomah County Parents-Teacher meeting was discussed and opposed by a unanimous vote. Refreshments were served by members of the banqueting committee.

The grange held an interesting meeting on Saturday, April 21. Several names were balloted on. A number of visitors were present. Some of the important questions of the day were discussed. Those taking part were, Deputy T. J. Kreuder, Lents grange; State Senator H. A. Lewis, of Russellville grange; C. T. Dickinson and wife of Oswego grange; Hon. W. H. H. Dufur and wife, of Woodlawn grange. Mrs. Dickinson suggested that the granges of Multnomah, Clackamas and Washington counties be represented in the parade in June in Portland. Mrs. Dickinson announced a committee meeting of the grange ladies on May 4 at the Portland library, Room H. At the close of Mr. Dufur's remarks on the food proposition, at the request of the grange, Mr. Dufur introduced the following resolution which was unanimously adopted:

Resolved, That we endorse a very thorough system of conserving the agricultural interests of the state in co-operating together in immediately working out and planting the unused acreage throughout the state of Oregon. That a crop for consumers may be harvested for use. That those in authority be authorized to immediately enforce a system that will carry out this work to completion.

We Have Them Now.

The bowels are the natural sewerage system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed into the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. This condition is quickly relieved by Chamberlain's Tablets. Obtainable everywhere.—Adv.

Insomnia.

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and if you do not rest much better. Obtainable everywhere.—Adv.

The upper view shows how groups of big stumps are blasted out clean at one time, with all dirt of the roots and stumps shattered into kindling wood. At the same time the subsoil is thoroughly broken up, creating a fine home for the new crop. Lower view shows a celery crop worth \$800 per acre ten months after stumps were blasted out.

WE ARE PROGRESSING

There is an old proverb that a wise man changes his mind, but a fool never does. The wise man has to change his mind to keep up with the times.

Your grandfather thought he was putting on style when he took his best girl out horseback riding. The young man today would like to have a six-cylinder car for his lady love. The smart men of today will be considered "old fogies" by the next generation. We are progressing, changing, keeping step with the times, that's all. Especially is this true of financial matters, modern banking. Few people keep their money hid about the house or run the risk of carrying it on their person. They follow the modern plan, keep their funds in a reliable bank like ours and pay by check. It's the safe, modern, convenient way.

COLUMBIA HEIGHTS

I should like to have a mistake corrected in last Outlook. Mr. George Knieriem joined the aviation corps, and not the coast artillery, as I stated in last issue and W. Rickert has joined the coast artillery regulars and Roy Woodward the navy. Charlie Hicks and Vencell Evans left this morning, but at this time am not able to state what or where their station will be. W. Rickert's father and also grandfather were both soldiers. W. Deaver, who joined the coast artillery sometime ago is also a son of an old soldier, and I kindly ask the editor to place the names of those worthy young men on the honor roll. We are ever so proud of these boys. They all deserve special mention for they are showing us that they are made of the right stuff, they are willing to sacrifice all that is dear to them in order to protect our country and so let us cheer them as they leave. All hail to the soldier and in God we trust that they may return

with honor, glory and victory.

Mrs. Dormann, mother of Mrs. Morgan of Chanticleer, will return to Eugene tomorrow after a pleasant visit at this place for a couple of months.

We are more than sorry to report the death of the little baby boy, born to Mr. and Mrs. Helen Deaver Nelsen, of Goldendale, Wash. The baby only lived a few days.

Mr. and Mrs. Julius Meier and children, spent Easter vacation at their beautiful country home here.

The Ehrman palace is progressing slowly on account of the weather, but in spite of weather conditions there are about 25 men working at the building. Today the landscape gardener is having a lot of trees planted.

Miss Ivy Reed, of Corbett, daughter of Mr. and Mrs. Myrtle Reed was married last week to Lewis Bradley of Portland. We congratulate. Cupid will have to change quarters now for he has robbed our vicinity of both young and old here the last few years.
