GRESHAM PEOPLE AND HAPPENINGS

Miss Margaret Cressy, was a week-end guest of relatives and friends in Portland.

E. R. Wright has been ill for the past few days, but is reported to be improving.

Miss Maude Michel and Miss Florence Fieldhouse were week-end guests of Miss Bessie Osborn at her home in Carlton, Oregon.

Miss Emma Johnson, of the Outlook force, spent a very enjoyable day in Montavilla on Sunday with Miss Ola Deniston, a teacher of that place.

Mrs. I. McColl has returned from Newport, Oregon, where she went several weeks ago on account of the illness of her daughter, Mrs. W. C. Belt.

Herbert L. Baslee, of Rockwood, who was in the aviation corps at Vancouver barracks, left this morning for the aviation training school at Fort Sam Houston, Texas. He expects to remain there indefinitely.

About 35 members of the sophomore class of the high school, together with their advisor, Miss Gregson, enjoyed a picnic at Multnomah Falls last Saturday. The weather was favorable and all reported a fine time.

Miss Esther Elford visited her cousin, Claude Elford, at Vancouver barracks last Sunday afternoon. She was accompanied by Miss Elsie Metzger. They attended chapel services and visited other places of interest.

Dr. Roland W. Quesinberry, of Salem, spent Sunday at Rockwood with his parents, Mr. and Mrs. W. Quesinberry. He is making preparations to take the examination in dentistry with a view to entering the officers' reserve corps.

Ralph Stanley has returned from Oakland, California, where he was attending the Oakland Polytechnical school. He returned to join the Farmers' Reserve corps, and has been assigned to work for his father. He was given full credit in the work done in his course at the Polytechnical school, and will not return until conditions permit.

C. B. Spencer, process man at the cannery, has returned from Brownsville, where he went last week to make arrangements to move his family to Gresham. He is busy installing machinery and getting matters in shape for the work of canning, which the fruit season opens. Several have signed up for work during the canning season, but many more workers will be wanted. Applicants should call Mr. Spencer at the cannery.

A special meeting of the W. C. T. U. will be held at the home of Mrs. T. R. Howitt, Thursday afternoon, at 2:30. The "housewives" begun for the soldiers will be finished and other work for the soldiers and sailors begun. Members are urged to be prompt in attendance as a short business meeting must be held. Everyone interested in this work will be welcome. Please bring needle, thimble and scissors if convenient.

Students in the commercial department of Union High school No. 2 are taking considerable interest in the typewriter tests given by the Remington company. The first test requires a speed of 25 words a minute, net, for 10 consecutive minutes, with not more than five errors. Miss Esther Anderson of Boring won this test with a net speed of 35 words and received from the company a certificate of efficiency. Miss Nellie Paris wrote 46 words a minute for 10 consecutive minutes, and made only one error. She has received a certificate of efficiency and a leather card case from the company. Any student who is able to write 60 words a minute for 15 consecutive minutes, without an error, would win a new typewriter. Several students of the school expect to take the Underwood tests in the near future.

Don't forget to read the want ads.

DANCE PARTY TAKEN TO COUNTY JAIL

Constable Squire had a tip that a party from Camas would be at Becker's hall near Corbett on Saturday evening last with an appetite for booze. He went out there with two deputies and rounded up three young men and three young women. They admitted that they had been drinking but no liquor was found either upon them or at the hall.

The whole party was taken to the county jail and next morning the girls were released. Yesterday the young men were told to go as there was no evidence against them on which to hold them.

WANTS A PARTNER IN A SKIN GAME

Guy Fieldhouse is looking around for a partner who will not be required to furnish any capital, but who must possess a little knowledge of anatomy and have a strong stomach. No others need apply.

Guy has been studying up on the possibilities of making a fortune out of mole skins. He says they will net twenty cents apiece and that he caught three of them this morning. He is so enthusiastic that he is willing to go fifty-fifty with the right kind of a partner—one who is willing to do all the work while Guy furnishes the capital, brains and mole traps.

Floyd Metzger entertained for the week-end his schoolmates, Fred Aldrich of Albany and Leo Couch of Wallowa. Floyd has been suffering for the past few days from blood poisoning, the result of a slight scratch, received while working with the automobile.

Honor Roll.

REPORTS ARE NOT MANY BUT VERY GRATIFYING

Saturday evening's meetings throughout eastern Multnomah county upon the call of the president and governor, to furnish agricultural data to the County Council of Defense, were not very largely attended as a rule.

Not more than a dozen representative farmers attended the Gresham meeting, and the reports from all over the county reveal either an apathetic attitude of a misconception of the idea, which was essentially a war requirement.

Reports received by County Agent Hall give the number of reports turned in at 146 from eight communities, with several yet to hear from. Those reporting were as follows:

Gilbert 21, Terry 11, Springfield 21, Gresham 11, Fairview 21, Rockwood, Columbia grange and Lusted combined 61.

The reports show three gratifying conditions which are worth all the trouble of the efforts made: This county can furnish all the seed needed for home needs; it can also supply all the labor needed at home; and there is a largely increased acreage this year going into productive crops.

It is expected that the sugar crop in the Philippines will be larger than ever before. In the last three years there has been a steady increase in the size of the crop, that of 1916 reaching the total of 290,000 metric tons.

Modern electric lighting costs about one-twenty-fifth as much as illumination with sperm oil or candles a century ago.

Whooping Cough.
One of the most successful preparations in use for this disease is Chamberlain's Cough Remedy. S. W. McClinton, Blandon Springs, Ala., writes, "Our baby had whooping cough as bad as most any baby could have it. I gave him Chamberlain's Cough Remedy and it soon got him well." Obtainable everywhere.—Ad.

The Wrong Number.

Sometimes, the telephone rings frantically while you are in the thick of getting breakfast. You stop mixing biscuits, pull the skillet back so the grease for the eggs won't burn, run over a chair or two in your mad rush to check the bell, and then, after you've answered the sharp query "who is this?" are squelched by the person at the other end of the line saying snappishly: "I didn't want you!"

You feel like answering back in the same spirit: "Well, for the land's sake—neither did I want you!" Being of gentle breeding, however, you don't do it. It gets on your nerves though, after a time, especially if you've been mistaken for the Mount Hood depot or a schoolhouse for a number of years, and have been blamed every time for being just a peaceable private residence. Of course, the word peaceable, is intended to mark the contrast between a private residence and a railway station, and does not reflect in any way upon schoolhouses.

The thing that is hard for the average person always blames the innocent answered for everything. No doubt, you'd be willing to bear half the blame, just for being on the earth, and accidentally getting in the way, but really, it seems too much to have to bear it all. Force of habit, or human nature, causes you to answer your own telephone, and of course, you can't tell by the sound of the ring that you're not wanted.

Wouldn't it be a pleasant surprise some day, when you've left the baby shrieking in the bath tub, or the cookies burning, beans sticking in the kettle, or electric iron on a rampage, if the one who rung by mistake should say sweetly and penitently: "Oh, I beg your pardon for bothering you." You'd go back to the fray, mollified and happy. But things like that happen so seldom, and getting your head snapped off happens so often, that really, one couldn't blame you if some day when some one shouts angrily: "I've got the wrong number." You'd answer back in the same tone: "Yes, and what is worse still, you got out of the wrong side of the bed this morning—the impolite side!"

Our Country Needs Our Money
Shall we not Respond—Promptly, Cheerfully, Liberally

The young men of the nation will be quick to respond in great numbers. If they are prepared to give themselves, shall we be less prompt to offer our money, which will be needed in great sums to provide for their proper equipment and maintenance, for fleets of ships and aeroplanes and for guns for coast defense?

You may subscribe for United States Liberty Bonds through this bank without cost or expense to you providing you do so promptly.
